## Russians Pursue Nazis Further Into Polish Areas

### Report Germans Are In Retreat Across Poland

Reds Are Pressing On From  
Sarny Toward Kovel,  
Says Moscow

#### NEW OFFENSIVE OPENED BY REDS

By NATALIA RENE  
(U. S. Staff Correspondent)

MOSCOW, Jan. 13.—The Germans, beaten backward by strong Russian forces all along the flaming eastern front, were reported fleeing across pre-war Poland today with the Red Army in pursuit.

Battlefront dispatches said that spearheads of the first Ukrainian army which encircled and captured the key rail junction of Sarny are pressing on toward Kovel, 80 miles to the west. Sarny is 38 miles beyond the old Polish frontier.

"The Germans are retreating in disorder westward from Sarny," one dispatch said.

#### Driving On Pinsk

Another spearhead, north of the rail junction which controlled German north-south troop movements in Eastern Poland, was reported less than 40 miles from the rail and river junction of Pinsk.

Meanwhile, to the northeast the sixth Russian offensive launched in little more than a month drove relentlessly across White Russia and other Red Army forces surged toward the key rail junction of Zhmerinka.

(The Moscow radio, heard in New York by the EOC, said the Russians are engaged in house to house fighting in towns and villages east of Vinnitsa, a rail point northeast of Zhmerinka. "The Germans are suffering heavy losses," the broadcast added.)

(The Vichy radio said that "crack Soviet units" have penetrated to the northern bank of the Bug river in their drive toward the Rumanian border and the Zhmerinka communications hub. The enemy-controlled broadcast, heard by Reuters failed to mention where the stream was reached.)

Battlefront reports, meantime told of the progress of Red Army units within old Poland. A Soviet spearhead, racing across the marshy terrain beyond the 1939 Polish frontier, was said to have driven to within 40 miles southeast of the rail town of Pinsk.

The new Russian drive was an-

### PA NEW OBSERVES

Return for furlough of some of the service men who have been in the Army for three years or more, reminds Pa New that it was just about three years ago this month that the National Guardsmen from New Castle were called into active service.

If you want to aid in the successful completion of the war, buy war bonds and hold them. Buying war bonds and cashing them in a few months after purchase is doing scant service in the way of aiding victory.

The light snowfall of yesterday brought out a few sleds, but coating was not what would be called "good." Boys and girls are still hopefully waiting for a heavier fall to get the first real coasting of the winter.

Pa New is told that farmers are also desirous of seeing a heavier snowfall, for protection of the wheat crop.

### HUGE DAYLIGHT RAID WAR TEST

By CAPTAIN JOHN H. CRAIG  
(Written Especially for I. N. S.)

Special significance of the vast daylight raid of the U. S. Eighth Air Force on vital German factories producing fighter-type planes is that it constitutes the first mass try-out of the American system of daylight precision bombing against targets deep in the heart of the best-defended portions of the Nazi Reich.

Hitherto the principal bombing assaults against Berlin and other objectives deep in the heart of Germany have been conducted at night, by British forces, using the British system of night bombing. These massive raids by huge, truck-

horse Lancasters and Stirlings dropping blockbusters, have caused great damage.

But, because of the fact that they operated at night, they have been forced to do their bombing by the "saturation" system. That is, they aimed to put at least one blockbuster into each square of a predetermined size on the surface of the target. Because of the fact that true military targets are small and highly protected, the all-important objectives often escaped destruction.

Marines Halt Attempt Of

New Britain

#### MANY JAP BARGES SUNK BY ALLIES

By FRANK ROBERTSON  
(U. S. Staff Correspondent)

GEN. DOUGLAS MACARTHUR'S HEADQUARTERS IN NEW GUINEA, Jan. 13.—Tough American leathernecks, employing artillery with deadly effectiveness, were disclosed today to have halted a Japanese attempt to land forces on Gloucester Bay, New Britain.

In an obvious effort to relieve the threat to their main bastion in the South Pacific, Rabaul, at the other (eastern) end of the jungle-clad island, the Japanese tried to land in the area controlled by U. S. Marines, who already have killed more than 2,400 Japs on the cape.

#### Attempt To Land Foiled

A MacArthur spokesman said, however, that when the Marine artillery opened up on the landing parties the enemy gave up the attempt.

Gen. MacArthur's communique revealed, meanwhile, that the Japanese have stepped up operations along Vitiav Strait, between New Britain and New Guinea, but that 43 barges, four luggers and other

### SHOOT DOWN 28 NAZI PLANES IN RAID ON SOFIA

ALGIERS, Jan. 13.—(INS)—Sharpshooters Flying Fortress gunners and pilots of escorting Lightnings were officially disclosed today to have shot down 28 enemy planes during the heavy daylight attack on Sofia, Bulgaria's capital, last Monday.

Sixty enemy aircraft swept into the air trying to halt the attackers, and nearly half of them fell victims to the guns that bristle from all sides of the big Forts, or the powerful weapons of the P-38s.

(Reports from southeast Europe indicated that the daylight attack and the nighttime R.A.F. raid that followed it, combined to make it the heaviest aerial blow yet delivered in the Balkans.)

Allied headquarters also announced that U. S. and British planes carried the aerial war to the Nazis yesterday on both sides of the Adriatic-Italy and Yugoslavia—and into southern France as well.

Two-motored American B-24s bombed rail installations and bridges behind German lines on the Fifth Army front, while R.A.F. Baltimore attacked Palona, 25 miles southwest of Chiefti.

In night assaults, R.A.F. Wellingtons hit the airfield at Adria and communications lines in eastern Italy.

American invaders shot up locomotives, freight cars and trucks in the Rome area yesterday. R.A.F. Mosquitos shot up trains in the south of France.

### Evelyn Keyes To Marry Director

HOLLYWOOD, Jan. 13.—(INS)—With a new engagement ring on her finger, Evelyn Keyes, blonde film star, made the first definite admission today that she and Director Charles Vidor will wed as soon as he is free.

They'll be married in March, probably out of town, the actress said.

This is the month when Vidor's ex-wife, Karen Morley, of stage and screen, is due to receive her final divorce decree.

### Casualties In Army 105,229

Secretary Of War Stimson  
Gives Report On Casualties  
Up To December 23

#### ITALIAN FRONT LOSSES ARE 78,119

By JOSEPH A. BORS  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—Secretary of War Stimson today announced that American army casualties in all theaters of war reached 105,229 on the basis of reports up to December 23.

This was the first time that American casualties in the army war theaters passed the 100,000 mark. The total included 16,831 killed, 38,916 wounded, 24,007 missing and 25,415 prisoners of war.

On the Italian front, Stimson said, American casualties to date were 2,798 killed, 11,762 wounded and 3,559 missing, for a total of 18,119.

#### Losses Relatively High

The secretary at his weekly news conference described American plane losses in the recent raid on German fighter aircraft factories as "relatively high," but he pointed out that while the United States lost 59 bombers and five fighters, the Germans suffered 100 fighter planes lost.

"During the past week the air war in Europe continued with unabated fury," Stimson said.

The secretary recalled that the Royal Air Force continued its devastating blows at Berlin to "destroy that military and industrial nerve center."

Stimson added that the American daylight raid on three fighter assembly and manufacturing centers in the Berlin area were made despite heavy weather. He said that a total of at least 1,200 U. S. planes, including 700 Flying Fortresses and Liberators, took part.

Direct hits were scored on ma-

### Flying Instructors Ordered Into Battle With Nazi Forces

NEW YORK, Jan. 13.—(INS)—Luftwaffe commanders, throwing every available man into their effort to halt Tuesday's smashing American bombing attacks on the Reich, were reported today to have ordered even their valuable flying instructors to take to the air against the raiding formations.

An NBC correspondent in London said that the enemy instructors had not been in combat for three years.

### Martha Raye Seeks Divorce In Mexico

JUAREZ, Mex., Jan. 13.—(INS)—A divorce suit has been filed by Martha Raye, Hollywood comedienne, against Capt. Neal Lang in Juarez civil court, it was disclosed today.

Miss Raye charged her husband with incompatibility. They were married in Las Vegas, Nev., November 24, 1941, and have no children.

Judge Rosas Ceballos said the decree should become final in three weeks. Miss Raye, who gave her age as 27, was reported to have announced previously she plans to wed Nick Condos.

### Victory Budget Sent To Congress Asks 108 Billions

Gigantic Appropriations  
Sought In Message From  
President Roosevelt

#### EUROPEAN CONFLICT EARLY END HINTED

By ARTHUR F. HERMANN  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—President Roosevelt submitted to Congress today a "victory" budget in which he hinted repeatedly at a possible early end of the conflict in Europe and asked for legislation which would increase appropriations for war to the astronomical total of 397 billion dollars by June, 1945.

Mr. Roosevelt's budget for the 12 months period from July, 1944, through June, 1945, called for appropriations and re-appropriations totaling 108 billion dollars. During this period, the president estimated, war spending would total 90 billion, while another 10 billion would be spent for federal non-war purposes and to make interest payments on the national debt.

He estimated that the cost of the war up to June 30, 1945—money actually paid out for war purposes—would reach the total of 292 billion dollars.

The chief executive cautiously forecast in several places in his message that the war in Europe may end abruptly, and urged congress to "set up the machinery" for orderly demobilization of the armed forces and re-conversion of the nation's huge war industries to a peacetime economy.

In thinly-veiled language, the

Governor Bricker Of Ohio

KANSAS CITY, Mo., Jan. 13.—(INS)—A change in the philosophy of government as well as a change of administration in Washington is needed if the nation is to be saved from five major dangers now confronting it in its domestic policy, Gov. John W. Bricker of Ohio contended today.

Bricker, an avowed candidate for the Republican presidential nomination, told a joint meeting of five Missouri and Kansas City GOP organizations that he was confident of a Republican victory in this year's national elections.

### GEN. ARNOLD SAYS PLANE LOSS WAS FULLY JUSTIFIED

WICHITA, Kan., Jan. 13.—(INS)—Gen. H. H. Arnold, commander of the U. S. Army Air Forces, today justified the loss of 64 American planes in Tuesday's raid over Germany by declaring "any raid is worthwhile that will enable us to win the war."

In Wichita to visit war plants, Gen. Arnold said it was impossible to measure any war by a yardstick. "Just as the Poetski raid took away the Nazis' oil," he said, "this raid took away their planes. We must measure the loss to Germany in morale and materials."

### Estimate Nazis Lost 120 Planes In Huge Battle

Three Major Nazi Aircraft  
Plants Believed Out Of  
Commission For  
Months

#### U. S. Bomber Loss IS PLACED AT 59

By CHARLES A. SMITH  
(U. S. Staff Correspondent)

LONDON, Jan. 13.—Late estimates on German losses in the daylight aerial duel over the Reich Tuesday, in which three major Nazi aircraft factories were blasted out of operation, indicated today that about 120 enemy planes were shot out of the sky.

The original figure was set at not less than 100, but later reports were expected to hike the number by at least 20, as against an American toll of 59 bombers and five fighters.

May Be Higher  
In addition, dozens of German "possible" many of which undoubtedly crashed, are not being listed in the U. S. tabulation.

The aircraft and crews lost in the titanic Tuesday assault, in which some 600 bombers and nearly 600 fighters took part, already have been replaced from large reserves held for such contingencies. American air authorities said.

The U. S. personnel loss was believed nearly 600 men.

The devastating aerial blow is thought to have halted fighter plane production at the three big Nazi plants for many months to come, and perhaps to have caused irreparable damage.

Observers, taking stock today of the crushing blow against Luftwaffe replacements, visualized results as excellent.

#### Plants Are Destroyed

A military spokesman described it as a "major military success," with three of Germany's biggest plants destroyed or damaged beyond usefulness for months to come.

### Planning For Postwar Period Is Suggested

President Submits Six-Point  
Program With Budget  
Message

WASHINGTON, Jan. 13.—(INS)—President Roosevelt's budget message submitted to Congress today contained a six-point program for postwar planning, including preparation for peace, manpower demobilization and reemployment, foreign relief, contract termination, public works and international readjustment.

#### It Follows:

1. Manpower demobilization and reemployment. "To master this great task of reemployment, we must maintain and strengthen during the demobilization period a unified national employment and counseling service. . . special measures are needed to increase the opportunities for the employment of ex-servicemen, particularly those disabled in war service."

2. Foreign relief and rehabilitation. "In liberated areas relief must of necessity, be a military problem at the outset. This job will be turned over to civilian administration as soon as feasible. . . appropriate committees of Congress are now considering enabling legislation that will permit the United States to make its proportionate contribution."

3. Wartime readjustment and preparation for peace. "As men, materials and facilities are released from war service and production such resources must be channeled into civilian production on a basis that will assure a high and stable level of production, consumption and employment. . . adequate re-conversion to civilian production will require many interrelated adjustments of fiscal policy, production policy, price policy, and labor policy."

4. Contract termination and disposal of surplus property. "The policies followed in contract termination—"

### Bangkok Bombed Says Jap Report

LONDON, Jan. 13.—(INS)—Domei, the Japanese agency, said today that American bombers attacked Bangkok, Thailand's capital, for "more than an hour" last night.

The raiders appeared at 9:30 p. m., Domei said, and rained bombs on the target until nearly 11 p. m. The Japs claimed that civilian establishments in the heart of the oriental capital were hit, and that temples and commercial establishments were damaged.

U. S. foreign broadcast intelligence service monitors said the Japs claimed the attack followed a three-hour blind bombing the night of January 10.

In the past, Bangkok has been attacked by U. S. planes based in India.

Some Yanks Under French  
Command Aid In Cervaro  
Capture Wednesday

#### WINTER THAW HOLDS UP SOME ADVANCES

By JAMES L. KILGALLIN  
(U. S. Staff Correspondent)

ALGIERS, Jan. 13.—American troops of the Fifth Army fanned out from the fallen mountain stronghold of Cervaro today as French forces—including some Yanks under French command—consolidated newly-won heights overlooking the Cassino plain.

Cervaro fell Wednesday afternoon at 1 o'clock, on the eighth day of the drive on Cassino, the gateway to Rome four miles to the northwest. Allied headquarters also announced that the Americans had seized Mount Capraro after a hard fight.

Under French Officers

Today's communique was the first official announcement that Americans were fighting under French officers, though French official circles in Algiers revealed the plan several days ago.

The communique revealed that French troops, carrying out mountain assaults on the right flank of the 10-mile front, recaptured Mount Raimo in savage fighting, and also drove the Nazis off Mount Molino to re-take that strategic height.

No details on the fighting that resulted in Cervaro's capture were available immediately at Allied headquarters, but Americans who took Mount Capraro, northeast of Cervaro, met spirited opposition from the Nazis.

#### Yanks Drive Ahead

After the fall of Cervaro, the Yanks engaged in forward patrol activity, fanning out ahead of the little town that the Germans had fortified heavily in an effort to protect Cassino and the valley approaches to Rome 70 miles further.

While American, British and French troops of Lieut. Gen. Mark W. Clark's Fifth army battled the

### Soviet Charges Spain Aids Nazis

Soviet Information Bulletin  
Charges Spanish Forces  
Still Fighting

By KINGSBURY SMITH  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—The Soviet Information Bulletin, official organ of the Russian embassy in Washington, launched an attack on Spain today.

Asserting that the government of Generalissimo Francisco Franco continues to aid Nazi Germany, the Soviet publication charged that Spanish warplanes and troops are still fighting with the Germans on the Russian front.

"The Spanish press asserts that Franco's government has completely withdrawn the blue division from the USSR, but the fact is the troops of this division are still at the front," the Bulletin said.

"Soviet forces have taken prisoner several soldiers belonging to the replenishment battalions dispatched to the Soviet-German front in September," the Bulletin said.

### HINT HUNGARY MAY QUIT SOON

NEW YORK, Jan. 13.—(INS)—An open hint that Hungary soon may surrender, perhaps to advancing Russian forces, was given today by an influential newspaper of that Axis-satellite land.

The article, quoted in a BBC transmission heard by CBS, declared:

"Although there are now Allied armies near enough to the Hungarian border to whom we can surrender unconditionally, we are counting on other means to obtain a lasting peace."

"On Tuesday," the announcer recalled, "a considerable number of Hungarian troops voluntarily surrendered to the Soviet troops advancing on Shepetovka."

The article, the announcer added, was published in the newspaper Magyar Orszag.

FACE SENTENCE  
PROVIDENCE, R. I., Jan. 13.—Four officials of the Anaconda Wire and Cable Company's Pawtucket plant were held for sentence today after a federal jury convicted them and the plant of conspiracy to manufacture and deliver defective wire to the Army Signal Corps.

The defendants were refused bail pending sentencing next Tuesday.

Along about this time of year when spring is far removed, when summer heat is a long way off and winter is in the groove, I notice cold men greet me with a hearty full tooth smile, and this my friend I've noticed has been going on a while. There was a time I used to think they just were being friendly, but this I found was simply wrong, it was the winter trends. For as the mercury went down, their spirits seemed to soar, they know the coal pile's getting thin, the weather's twenty-four.

## Badly Smashed Plane Is Brought Back From Raid

WITH THE U. S. AIR FORCE IN England Jan. 13.—(INS)—Superior officers of a young flying lieutenant who brought home his crippled Flying Fortress from Tuesday's blasting of the Reich, despite damages which should have forced the plane to the ground, today he will be recommended for the DSC.

The pilot, Second Lieut. William F. Cely, of Houston, Tex., was described by his crew as "the best damn pilot in the world" after he nursed back to base the B-17 "Frenchie" with most of its tail shot off, its wingtip gone and a motor out of commission.

Base commanders hailed Cely's action "a great feat" and announced that they will request the distinguished service cross go to him in the immediate future.

The ship was reduced to "just a series of holes held together with some metal" by enemy interceptors which tackled it in great strength during its attack on the Messerschmitt plant at Brunswick.

## Polish Leaders Confer With Eden On Russian Plan

LONDON, Jan. 13.—(INS)—Premier Stanislaw Mikolajczyk, of the Exiled Polish government, and Foreign Minister Tadeusz Romer met today with British Foreign Secretary Anthony Eden for conferences on the Russian proposal to set up the Russo-Polish frontier along the 1919 Curzon line.

After the meeting Polish quarters said the long-expected announcement on the official Polish reaction to the proposed border settlement could not be expected before tomorrow.

The Polish cabinet met twice yesterday to discuss the proposal and was to meet again today.

## SOME IDEA OF COST OF WAR

WASHINGTON, Jan. 13.—(INS)—On the basis of President Roosevelt's estimate that the actual cost of the war will total \$292 billion by June 30, 1945, the cost to each man, woman and child in the United States would be \$2,212.12.

The Bulletin further charged that Spain is "supplying the German deficit in strategic raw materials and is facilitating the smuggling of similar materials on Spanish ships into Germany from South American countries."

"British naval vessels in the Atlantic are constantly holding up Spanish ships in the Atlantic carrying contraband for Germany," the Bulletin added.

Implying that Spain may yet face another civil war, the Soviet Bulletin warned that there exists in that country an "anti-Fascist democratic front" whose purpose is to "emancipate Spain from Fascism."

## Congressman To Stay Instead Of Going Into Army

WASHINGTON, Jan. 13.—(INS)—Rep. Albert Gore (D) Tenn., after conferring with President Roosevelt today, said that he will keep his post in the house at the president's request rather than remain in the army as a private.

The young Tennesseean is married and the father of one child. He recently waived his deferment as congressman and asked to be inducted into the army, taking his enlistment oath two weeks ago.

Mr. Roosevelt two days ago notified congress the attorney general had ruled that congressmen could not serve in the armed forces.

Gore, after conferring at the White House this morning, quoted Mr. Roosevelt as saying to him: "You are needed in congress and can best serve your country there. I hope you will stay."

## REPORT GERMANS ARE IN RETREAT ACROSS POLAND

(Continued From Page One)

nounced in the official Soviet communique exactly 24 hours after the Red Army was revealed to have continued its offensive—a week schedule with its fifth push in as many weeks.

In two days, troops of Gen. Konstantin Rokossovsky's army blasted a hole 19 miles wide and ten miles deep in German defenses west of Rechitsa. Tank and infantry columns swept over more than 30 towns and villages beating off determined enemy counter-attacks and "annihilating" some 2,000 Nazis in a single day's fighting.

A heavy bombardment by Red Army big guns preceded launching of the offensive, which was pointed against the important railroad junction of Mozyr. At this point the Leningrad-Odesa and Gomel-Warsaw lines intersect.

In the fighting, so fierce that the Russians disabled or destroyed 22 enemy tanks and knocked out of action 40 artillery pieces, the Red Army captured Domanovichi and Shereiki.

Domanovichi lies 22 miles north of the rail junction and just west of the Kalinkovichi-Zhlobin railway. Shereiki is but nine miles south-east of Mozyr.

Front line dispatches said that Russian spearheads, "in an out-flanking movement from the north-east," crossed the railway from Zhlobin and at several points were within 15 miles northeast of Mozyr.

As the Red Army drove for the old Polish border, some 75 miles distant in this sector, the Germans sought frantically to retain their positions, but failed.

Within Poland, spearheads of Gen. Nikolai Vatutin's first Ukrainian army pressed beyond captured Sarny, which is 38 miles west of the 1939 Polish border. Occupation of the rail junction, which is formed by intersection of the Kiev-Warsaw and Rovno-Baronowice lines was announced in a special order-of-the-day by Premier Marshal Joseph Stalin.

Germans in Jeopardy

Stimson said that at Brunswick all buildings except one were destroyed at the Messerschmitt 110 factory.

The secretary asserted that sweeping advances of the Soviet army "placed in jeopardy a great number of German troops on the Russian front."

Stimson added that the destruction or capture of vital rail centers on the Russian front made it difficult for the Nazis to supply or withdraw their troops.

He warned, however, that there is no indication of a general deterioration of the German armies on the eastern front.

In the Southwest Pacific recent American landings at Sador, on New Guinea, have trapped substantial numbers of Japanese on the beaches between that point and Cape Scharnhorst, Stimson stated.

The secretary said there was no confirmation of recent Japanese claims of successes at Arawe, on New Britain Island.

## FIVE DANGERS FACING NATION

(Continued From Page One)

tory," he asserted. "As they light the fires of 'liberty' around them, we must keep them burning brightly here against the day of their return."

Threaten Nation

The Ohio governor said that New Deal bureaucracy threatened the nation with five dangers:

Danger in the size and power of the federal government and its encroachment upon the proper functions of the states.

Danger in burdensome taxation "not for war but for expanded functions of government, depriving our people of the opportunity to make their own way."

Danger in bureaucratic restrictions so extensive and burdensome that they have been smothering the initiative and enterprise of our people.

Danger in the "ruthless aim to destroy our system of checks and balances, superimposing the executive department over the other departments of government."

## ESTIMATE NAZIS LOST 120 PLANES IN HUGE BATTLE

(Continued From Page One)

Reich—battles in which at least 2,000 American and Nazi planes participated—were set at not less than 100, indicating that when returns are tabulated finally the enemy's losses will be still greater.

While tonnage of bombs unloaded on the targets at Halberstadt, Oschersleben and Brunswick was not immediately revealed, some late reports in London newspapers expressed belief that it was a near record.

The Daily Express called it the heaviest bombardment of the war which, if true, would mean that explosives that plummeted into Messerschmitt, Junkers and Pocke-Wulf plants reached a higher total figure than the RAF has unloaded on Berlin in its series of metropolis-rocking aerial blows since November.

Over 1200 Aircraft In Raids

The U. S. war department said the three key Nazi fighter plane factories were smashed out of operation. The cost was approximately five per cent of the attacking force, indicating that 1,280 American aircraft participated.

In Wichita, Gen. H. H. Arnold, U. S. air chief, called results a "great accomplishment truly remarkable" and said that Germany has been deprived of hundreds of planes that she would have turned out in the factories. "As a result of this air attack," he said, "hundreds of projected German fighter planes will never be manufactured to stop the allied bombers for allied troops preparing to invade Europe."

All the major buildings at the Pocke-Wulf factory in Oschersleben, believed to have produced more than half the powerful FW190s now in operation, were damaged heavily by bombs dropped from the big Flying Fortresses and Liberators, 700 of which carried the explosives across hundreds of miles of enemy territory. Into the three-plant attack.

High explosives blanketed the big main assembly plant of the Waggon factory at Brunswick where Messerschmitt 109s are turned out, and there was "considerable destruction" in every building but one, which was damaged. There was severe damage, too, at the Junkers plant at Halberstadt, principal producer of both JU88s and JU188s.

The attack on the Junkers plant was considered particularly important because the JU88, regarded as one of the Nazis' most versatile planes, is equipped with rocket motors and has figured prominently in recent battles with U. S. heavy bombers.

## HUGE DAYLIGHT RAID WAR TEST

(Continued From Page One)

with Flying Fortresses and Liberators enjoying a clear view of all details of the target, placing bombs exactly where they will do the most damage. It is universal admitted that the daylight system is better. Its drawback is that although the bombers can see the target, the enemy fighters can also see the bombers.

With American Eighth Air Force building up great power in British bases, it has been evident for some time that a trial of the American system of daylight bombing on a mass scale was in prospect. In the early days of American participation in the bombing of Germany, daylight targets selected were mostly Nazi seaports and other objectives close to the ocean or the frontiers of the Reich. In attacking these, the big American bombers could reach their targets and be far distant on their home journey before German fighter-plane strength could be concentrated against them.

Now, the present raid, on the contrary, was a bold stab across country where the Nazi air-raid network was thickest and fighter-defense strongest. Berlin, around which the bombers' objectives are clustered, is about 300 miles from the nearest point on the North Sea. That is a little less than an hour's flying time, going and coming. In two hours, practically the whole fighter-strength of the Reich could be concentrated against the invaders.

The battle which ensued will unquestionably make history in air warfare, and make like something out of the pages of a sensational novel. The Germans made use of torpedo-shells, exploding in the path of American bombers and scattering lethal fragments. Other novelty seems to have been a sort of aerial chain-shot, contrived of two parachute bombs connected by a wire cable.

The raid seems to have achieved its mission successfully with losses heavy, but not disproportionate. Ultimate objective was to wipe out sources of Nazi fighter-plane strength. There will probably be many similar raids in the future.

Statements and opinions herein are private to the writer and are not to be construed as reflecting the views of the Navy department.

## JAPS FAIL IN LANDING MOVE AT GLOUCESTER

(Continued From Page One)

small vessels had been sunk or damaged by U. S. planes and naval units. Many of the barges were jammed in typical Japanese fashion with troops, and it was believed the enemy was attempting to evacuate the New Guinea coastal strip between Sador, where American troops have been expanding their beachhead, and Posa, where Australian troops have been pushing their way up the coast.

Jap Positions Untenable

The Japanese position in this area, with Allied troops on both sides, is considered untenable. With 300 more Japanese killed on Cape Gloucester, the enemy's casualties in this one area total more than 2,400 dead, MacArthur's headquarters revealed.

American casualties, in both killed and wounded, are less than one-sixth that number.

MacArthur's spokesman gave the lie to a Japanese broadcast that Arawe, on New Britain, had been recaptured. It still is in American hands, he said, terming the enemy claim to be "complete exaggeration."

U. S. heavy bombers, with fighter escorts, roared over the Madang-Aleishafen area of New Guinea again, site of major Japanese supply installations, to drop 125 tons of bombs, starting fires and causing explosions.

Other American air units ranged over the New Britain-New Guinea area bombing and strafing shipping and Japanese targets.

## MRS. GEORGE J. JONES HONORED WEDNESDAY

Wednesday evening, January 12, in the Nurses Home of Jameson Memorial hospital, Mrs. George J. Jones, nee Cecelia Turner, supervisor at Jameson Memorial hospital, was honored by the Faculty Student Association.

The event was planned as a total surprise to the honoree, the business routine being brief, when the assembly burst into song, saluting Mrs. Jones.

The program was launched with a round of games and dancing. A treasure hunt featured at the closing when Mrs. Jones found a handsome shower gift of leather as a remembrance from those surrounding her.

Refreshments were served afterwards from a table prettily arranged by Miss Jean King. Mrs. Shirley Owens was social chairman in charge. Pouring were Miss Prudence Appleman, director of nurses, and Mrs. Travis French, assistant director.

Mrs. Jones plans on joining her husband, Capt. George J. Jones at present in Texas with the U. S. Army, in the near future.

## WIMODAUSIS CLUB LUNCHEON-PROGRAM

Regular monthly luncheon meeting for Wimodausis club was held in the Scottish Rite Cathedral on Wednesday afternoon, January 12, with a large number present.

Luncheon tables were attractively arranged in the patriotic theme, set off with glowing white tapers. A delicious menu was served by hostesses Mrs. William Klingensmith, and Mrs. Andrew White and their following committee of aides: Medames Louis Moretti, L. M. Faris, Frank Wilkinson, George Waters, Edith Simpson and Carl Gaston.

The assemblage adjourned to the East Lodge rooms where program chairman, Mrs. William Strimatter, presented an impressive memorial for deceased members. As their names were called, club members remembered each by placing a bouquet of flowers in a crystal basket that stood on an improvised altar. Mrs. Dorothy Stoddard was reader, and in the closing, Miss Betty Smith with Miss Nancy Jarrett, accompanist, sang "Face to Face" by Herbert Johnston.

President Mrs. M. M. Ingham introduced Lieut. Dorothy M. White of the United States Marine Corps, from Pittsburgh. Lieutenant White told of the excellent training and the important work that the Marines are doing. She sighted the opportunities opened for them after the war, and stated it is the youngest branch women's service organized. She concluded, urging all women who can to "Be a Marine and Free a Marine" for active duty.

Plans for the annual club party on February 2 were formulated with Mrs. Harry McFeeters, chairman in charge. The next regular meeting will be in the nature of a tea with Mrs. J. J. Madigan, Mrs. Sam Nettle and Mrs. H. W. French in charge, aided by board members.

## The Story Of Famous Diamonds

Diamonds That Have Shared In the Course of World Events

**STEWART DIAMOND**  
IT TURNED A MAN'S MIND

Of all the goliaths in stones to come out of South Africa, the Stewart is perhaps the most famous river stone. The rough diamond, weighing 296 carats, was found at Waldeck's plant on the Vaal River in 1872. The finder went out of his mind for three days and could do nothing but laugh and cry, tossing the stone up in the air and catching it again like a child. It was required to a beautiful brilliant of 123 carats, and is now owned in England.

## TRADESMEN ARE GETTING POLITE IN LONDON NOW

By CHARLES A. SMITH  
LONDON.—(INS).—There are positive signs in London that the war is coming to an end.  
The tradesmen are getting polite to telephone me when he received his next allowance of gloves.  
The guy who runs the store where I get my daily pack of cigarettes has ceased to glare at me and has been saying "thank you" for the last week.  
The milk delivery man, last Sunday, didn't grumble quite so much when he had to make change for me.

**Big Change Coming**  
And today two things took place which convinced me there's a big change coming. The newsdealer who during the last year or so sometimes has haughtily "reserved" me a morning newspaper affably offered me the choice of three papers. And one INS man had the unprecedented experience of having the owner of his corner wine-shop offering to send him up six bottles of beer.

Maybe all this doesn't sound very important to a lot of folk back home. But to a fellow who has suffered every possible indignity at the hands—and tongues—of shopkeepers over many weary months of war, the mild attention he is getting right now is most encouraging to his morale.

And the only explanation of the change that seems to amount to a row of beads is that the shop people must feel the war is almost over and they had better start watching out for possible post-war steady trade again.

**Shops Empty As Ever**  
It cannot be that there are more goods in the shops. They are as empty as ever and most of them still carry the old, familiar signs about "No matches." No repairs taken. No eggs, etc.

Until quite recently a kind word from the average shopkeeper or saleswoman was about as rare as a lemon. A negative came automatically to a shopkeeper's lips almost before the would-be customer could phrase a request. And an "offer" to send something home or to earmark goods expected in the future, sent the astonished customer into a swoon.

For example, the woman of elderly vintage who presides over the "dry" where I am rationed for eggs, butter, margarine and what-not, took a violent dislike to me from the very beginning. When I didn't like the looks of some cheese she was pushing across the counter toward me, and started to murmur something, she would snap: "Make up your mind. I haven't all day to waste," or some similar chatty stock phrase.

**"There's A War On"**  
One day she coldly told me for the thousandth time, "There's a war on" and I blew up and asked for "Just a little civility, please." And for many weeks thereafter she made it a point of honor never to serve me until the last customer had left the shop and I couldn't possibly be neglected any longer.  
For many months I have been one of those males who have almost crawled into local shops, grabbed the first thing that's been offered me, and got out before anyone could tell me, brightly: "No we are out of that." or "Come again next week. We may have it then." And certainly before anyone could give me that

## MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.  
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

hoary old line about there being a war on.

But today things are different. I'm beginning to walk boldly into stores, beginning to forget to swoon when I'm offered a few kind words. In fact I'm starting to realize again that it's me who's doing the shopkeeper a favor by giving him my custom.

## Huge Highway Program Urged As Postwar Move

WASHINGTON, Jan. 13.—(INS).—President Roosevelt sent a message to Congress Wednesday recommending consideration of a post-war highway construction program costing approximately 750 million dollars annually.  
With the message, the President transmitted a report on the nation's post-war highway needs made by the national interregional highway committee with the recommendation that it meet "the favorable consideration of the Congress."  
This report recommends a national system of rural and urban highways totaling approximately 34,000 miles and interconnecting the principal geographic regions of the country.

## Seek To Assure Jobs For Veterans

HARRISBURG, Jan. 13.—(INS).—A three-point program highlighted the postwar blueprint of a proposed "state clearing house committee" which seeks to assure a job for every war veteran.

The committee is an off-shoot of the American Legion and has enlisted the support of Gov. Edward Martin and farm, civic, labor and veterans groups. Members have asked Governor Martin for an informal conference January 19, prior to holding an organizational meeting the following day.

The program advanced by the committee calls for (1) employment of all honorably discharged veterans; (2) employment of all persons ousted from their jobs by veterans; and (3) preservation of free enterprise and labor.  
Edward A. Linsky, adjutant of the Pennsylvania department of the American Legion, has asked the following organizations to cooperate: Veterans of Foreign Wars, Disabled War Veterans of America, American Federation of Labor, Congress of Industrial Organizations, National Farmers' Union, National Grange, National Association of Manufacturers, Lions International, Rotary International and National Exchange.

## OCD NOTES

Activities Of OCD Workers Are Outlined Here

Ribbon citations were awarded at wardens meetings held last evening in Mahoningtown and in the Ryantown district. These awards were made for 500 hours or more of service in the OCD. At the meeting held in Mahoningtown, Mrs. Nancy Thayer, was the recipient. Mrs. Thayer has served the different wardens groups in that part of town as instructor and in other capacities. In Ryantown, John Hitch, of Bell avenue, was awarded the ribbon citation for 500 or more hours of service. He has served in different capacities with his group. These citation awards were made by D. O. Davies, chairman of the local Council of Defense. Frank Sergeant, co-ordinator, accompanied Mr. Davies.

Notices have been sent to individual members of OCD asking them to participate in the mobilization of January 15, 1944, as inspectors. These persons have been asked to attend a short meeting called on Friday evening, at 7:30 p.m., to be held at city office, City Bldg. At this time, these inspectors will get their assignments and inspection sheets, along with certain instructions.

A common term, banded and released on Muscongus Bay, Me., in 1913, was found dead four years later in Nigeria, Africa.

## Three Sentenced For Violation Of Draft Regulations

PHILADELPHIA, Jan. 13.—(INS).—Federal Judge Guy K. Bard on Wednesday sentenced three members of the Wenger Mennonite sect, of Lancaster County, to five years each in a federal penitentiary for refusing to report for induction into a conscientious objectors work camp.

Judge Bard had previously offered three times to free them if they would comply with their draft board's orders.

They are Mahlon Stauffer Martin, 26, and Amos Souder Shirk, 25, both of New Holland, and Weaver Weber Shirk, 27, of East Earl.

At the same time, the jurist placed Ivan Weaver Leid, 24, New Holland, and John Paul Shirk, 23, of East Earl, under suspended sentences when they promised to obey induction orders.

All five had previously been given prison terms on similar charges. In December, 1942, they were given sentences varying from two to three years, and were released from prison after serving four to seven months in order that they might attempt to qualify as "essential farm workers."

In 1943, it is estimated that the express business of the United States will exceed 200,000,000 shipments.

### Negotiations May Nullify Formula Of 'Little Steel'

PITTSBURGH, Jan. 13.—(INS)—Contract discussions which may nullify the "little steel" formula got underway today, as union and management representatives of the Weirton Steel Company closed themselves with Commissioner Joseph Conway, of the U. S. Conciliation Service.

Management has announced it is agreeable to the independent union's demands of a general minimum wage of \$1 an hour and a 15-percent increase for salaried employees, provided the government permits a corresponding rise in the price of steel.

Today's hearing is a fact-finding meeting with the conciliator deciding whether the "dispute" is to go to the War Labor Board. The CIO-United Steelworkers of America, at present negotiating with big steel in Pittsburgh, seeks a wage minimum of 95 cents per hour.

Mr. George, a former New Castle News pressman, is associated with the Oakland Review in Oakland, Calif.

CHICAGO, Jan. 13.—(INS)—The findings of three Brooklyn physicians that a combination of penicillin and heparin might prove a highly successful treatment for usually fatal heart ailments were announced today.

The physicians who reported their discovery in the journal of the American Medical Association are Drs. Philip Rosenblatt, Harry J. Greene and Leo Loew.

In commenting on the treatment given seven patients stricken with subacute bacterial endocarditis, an inflammation of the membranous lining of the heart almost invariably fatal, the doctors declared: "Further observation will be required to determine the permanence of results, but the immediate effects suggest uniformly successful sterilization of the blood and relief of clinical manifestations."

### Oh, to Corral Her!

THE CAVALRYMEN of the U. S. Army may have lost part of their prestige to the armored forces, but they apparently have lost none of their eye for beauty. ### 'CONTACT LENS' TOPIC OF B.P.W. CLUB SPEAKER

In The Castleton Wednesday evening Business and Professional Woman's club members gathered for dinner, when they hear as speaker Dr. James Blackwood.

Dr. Blackwood gave a most interesting talk on "Contact Lens and Eye Injuries". He told the history of contact lens when it was first developed in 1827, and followed it through until the present day. He further illustrated with the showing of moving pictures. His subject also dealt with injuries to the eyes. Miss Theodora Pollock, chairman of the health committee, introduced Dr. Blackwood.

Attention was given to the meeting for international relation departments Wednesday evening in the Y. W. lounge, when Miss Elsie Calvin will be heard. She will give a review of the book, "U. S. Foreign Policy," by Lippman. A report of the membership committee followed.

February 9 the regular meeting of the club will be held, at the same place.

### TWELFTH ANNIVERSARY FOR SIX O'CLOCK CLUB

In observance of being organized for 12 years, Six O'Clock Dinner club members gathered in the home of Mr. and Mrs. Walter C. Gilmore, East Washington street, Wednesday evening for a special anniversary dinner party at 6:30. Appointments were in tune with the occasion, and the hostess was aided throughout the evening by her sister, Mrs. Gilmore Smith.

The remaining hours were devoted to contest bridge, prizes going to Mrs. Gilmore Smith, Mrs. John Morgan, Mrs. G. S. Jenkins for the ladies, and Frank R. Doyle for the men.

Thursday, February 10, the membership will be received at the residence of Mr. and Mrs. John Morgan, East Washington street, for another dinner party.

**N. N. 500 Club**  
N. N. 500 club members met with Mrs. Earl White, Mulberry street, Tuesday evening for a delightful meeting.

Prizes in cards were captured by Mrs. Elmer Shaffer, Mrs. Edward Parks and Mrs. Robert Rook.

Special guest was Mrs. Charles Richardson. The hostess served a delicious lunch, enjoyed by candlelight.

Mrs. Elmer Shaffer, Park way, will receive the club on January 25.

## SEVENTH WARD

### MAHONING SCHOOL IN WAR LOAN DRIVE

Pupils and teachers of Mahoning school have joined in the Fourth War Loan drive put forward by New Castle public schools.

Miss Nannie Mitchell, principal, states that Mahoning school has set as its goal for the selling and purchasing of war savings stamps and Series E war bonds at the amount of \$3000 by February 15.

In the last campaign of selling war stamps and war bonds, pupils and teachers of this school made a splendid record: a goal of \$3000 was set for November which was exceeded, and the mark for attainment was raised twice, and by the middle of December over \$5000 worth were purchased and sold.

The school faculty would be glad if those purchasing war stamps and bonds to help purchase a Mustang pursuit plane to help win the war, would buy them from the pupils or teachers so that Mahoning school would get credit in this worthy effort being put forward by the city schools.

### RECEIVES OGD SERVICE BAR

At a meeting of the Mahoningtown Sentinels Tuesday evening at the fire department, East Cherry street, plans were completed for the inspection of air raid wardens, messengers and fire guards at the state OGD inspection on Saturday evening.

Near the close of the meeting Mrs. Nancy Thayer, instructor, was presented with a 500 hours OGD service bar by Councilman D. O. Davies, safety director.

### M. E. G. S. MEET TONIGHT

## SEAMAN GETS REVENGE IN U-BOAT FIGHT

By HOWARD BERRY  
(N. S. Staff Correspondent)

LONDON—Able Seaman James G. Uren, of St. Ives, Cornwall, is one of the most satisfied men in the British navy today. He has repaid a debt to the Germans with interest.

Blown up early in the war when his ship struck a mine, Uren long cherished the hope that one day he would get even.

The chance came recently when the seaman, a gunner on the British Frigate H. M. S. Byard, built for the British Navy in an American shipyard took part in a North Atlantic battle in which five U-boats were destroyed and three others damaged.

### Escorting A Convoy

With a number of other warships, the Byard was escorting a convoy which had been shadowed by submarines for days.

Returning from a search sweep one afternoon the Byard's instruments picked up a submerged undersea boat. The British ship attacked with depth charges and the sun surfaced 500 yards ahead.

"There was a glorious opportunity to ram," said Lieut. B. L. Coates, one of the Byard's officers, "but we were a long way from home and our commander, Lieut.-Commander L. H. Phillips, decided that our guns could deal with her."

### Seaman Gets Even

That was the Uren's opportunity, and his Oerlikon was the first gun to open fire.

"It was the first time I had had a chance to use that gun in action," said Uren, "so I was all set to make the U-boat crew hop as they came out of the conning-tower."

As soon as the submarine surfaced, men came on deck. But Oerlikon shells knocked out any German who got near the deck gun.

"We let her have it with every gun that could be brought to bear," said Lieut. Coates. "Our heavier guns soon began to knock bits off the hull and conning-tower."

### Germans Were Scared

The U-boat sank 40 minutes after

the first contact. The frigate picked up an officer and 26 ratings.

"They had been told all sorts of stories about what happened to our prisoners and were pretty scared at first," said Lieut. Coates. "But they soon seemed pretty glad to be out of the war."

The Byard is the first of her class to sink a submarine.

## Pvt. Drake Named On Casualty List

Local Boy Now Able To Be Up And Around Hospital, He Writes Mother

Pfc. Charles F. Drake, son of Mr. and Mrs. Charles R. Drake, of 408 Meyer avenue, who was wounded in the fighting in Italy on December 1, has been named on the latest casualty list released by the War Department. His parents were notified of his wounds in a telegram on December 18.

Private Drake, who is 29 years of age, was inducted into the service on April 22, 1942, and is in the Coast Artillery. He has been overseas since the original invasion of North Africa on November 8, 1942.

In a letter just received by his mother, written from a hospital in Italy, he states that he is now able to be up and around the hospital. He received shrapnel wounds of the back and hip, which are now practically healed, he states.

## EDENBURG

The Woman's Society of Christian Service of the Methodist church met at the home of Mrs. Charles Loudon Wednesday evening with Mrs. Roy Unangst, associate hostess. The meeting was opened by the president, Mrs. Roy Raub with the singing of hymns. Mrs. Sam Book, devotional leader, and Mrs. Sam Book the acting secretary, due to the absence of Mrs. Charles Hoover. Mrs. Raub had charge of the pledge service with Rev. Everett Spring singing a solo accompanied by Mrs. Ray Biddle. The following ladies were appointed as chairladies of the groups for the coming year: Mrs. Ray Biddle, Mrs. Roy Unangst and Mrs. Sam Book to meet at the home of Mrs. Roy Raub Wednesday afternoon at 2 p. m. Delicious refreshments were served by the hostesses, assisted by Miss Rebecca Loudon. The hostesses for the February meeting will be Mrs. Clifford Beight and Mrs. Merlin Felger of the North Side.

Mrs. Ray McKay and son, Raymond Albert, were Wednesday shoppers at New Castle.

Mr. and Mrs. Wilbur Paden and son, Jimmie, of Pleasant Hill, were Sunday evening callers at the home of Mr. and Mrs. Sam Book.

Mr. and Mrs. Roy Raub were Tuesday callers at the home of Mr. and Mrs. John Shaffer of New Castle.

Mr. and Mrs. Frank Usselson were visitors at the home of Mr. and Mrs. Agnar Swanson of New Castle.

A Liberty ship has been named for Mason L. ("Parson") Weems, early biographer of George Washington and reputed originator of the cherry tree story.

### VERDICTS FOR DEFENDANTS

Two verdicts for the defendants were returned to the court on Wednesday morning.

In court room number one the case was that of Jacob Hamrak and Barbara Hamrak versus Carlo Scorza. The plaintiffs claimed Scorza threw stones at them and injured them. They claimed damages but the jury refused.

In court room number two the case was that of John D. and Edna Gyle versus William Shidley. It was claimed by the plaintiffs that the defendant wrongfully occupied an acre of ground they claimed as theirs. Shidley claimed he had bought it from a man who had bought it from the Gyles. This was the second trial of the case and the second win for Shidley.

Two new cases were taken upon

Wednesday. In court room number one the case of Sarah A. Cox administratrix of the estate of Wilda Helen Cox, late of Pulaski township versus Dr. Anthony J. Looze of Youngstown, O., came to trial. This is a case where the defendant is being sued for damages arising out of the death resulting from injuries sustained when she was a passenger in the plaintiff's car. The accident occurred on the night of May 16, 1943, at the intersection of the McGuffey road and the New Bedford-Hubbard road in Pulaski township. A car driven by Edward Morris collided with the Looze car, injuring Miss Cox.

In court room number two the case of Alon W. Shewman versus C. Harvey Milholland came to trial. This is a case in which the plaintiff claims damages for an accident on Highland avenue on October 10, 1942. It is claimed the defendant pulled out from the curb, hitting Dr. Shewman's car.

**NEW JUROR RATE**  
Jurors serving on the civil court juries have been in session this week are getting the advantage of the new law which gives jurors \$4 per day instead of the \$3 per day formerly paid. The civil term is finished, the two cases mentioned above being the last cases on the docket.

## WAR CUTS COST OF ROAD REPAIR

HARRISBURG, Jan. 13.—Summarizing the road improvement costs of the Pennsylvania Department of Highways, Secretary John U. Shroyer said the 1943 costs were 70 per cent of 1942, 40 per cent of 1941 and approximately 33 per cent of 1930.

In 1930, the largest construction year in the history of the State Highway Department, the total costs were 80 millions of dollars of which approximately 63 millions represented improvements.

In 1941 the total costs were seventy-nine and one-half millions of which fifty and one-half millions were for improvements. Thirty-two and one-half millions of these improvements were performed by contract.

The 1943 accomplishments compare with a total of fifty-seven and one-half millions for previous year of 1942, of which twenty-nine millions covered improvements. Seventeen millions of those improvements were performed by contract.

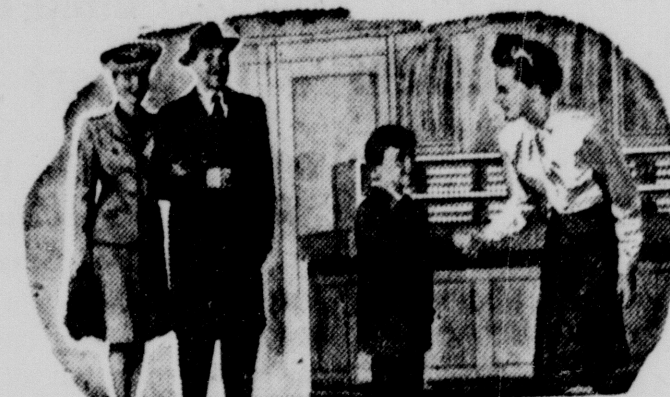

From December 1, 1942 to November 30, 1943, in the most restricted season of the highway department's entire history, the total costs of the department were fifty and one-half million of dollars. Twenty and one-half millions represented construction, reconstruction and resurfacing of the State Highway System. This is more than 40 per cent of total activities. Ten and one-half millions of this improvement program were performed by contract.

From the standpoint of physical accomplishments, more than 450 miles of roads and streets have been constructed, reconstructed, resurfaced and surface-widened in 1943. More than 4000 miles of bituminous roads have been surface-treated. All improvements have been approved by Federal authorities as being necessary for the war effort. This record continues to keep the Pennsylvania Department of Highways well above the general average of all others in the United States.

## FARM GROUPS TO HOLD MEETINGS

HARRISBURG, Jan. 13.—Several thousand Pennsylvania farmers and many visitors from other states are expected to attend the annual agricultural association meetings here next week, beginning Tuesday, January 18 and closing Thursday evening, January 20.

Eighteen state-wide farm organizations have arranged programs upon invitation for the Pennsylvania State Farm Show Commission which sponsors the meetings during

normal times during the third week in January that is traditional for holding the annual State Farm Show in the Capitol City.

Most of the farm groups have arranged their meetings so that members will arrive in time for the opening general session on Tuesday evening when Governor Edward Martin is to speak on conditions faced by Pennsylvania farmers in wartime. Miles Horst, Secretary of Agriculture and chairman of the State Farm Show Commission, will preside.

A fish fossil estimated 5,000,000 years old was dug up near Los Angeles, Calif.

The duration of most flights of flying fish is very short, lasting but one or two seconds. Where the fish makes a series of successive leaps the flight may last as long as 42 seconds.

Coal has more color than the rainbow, is abundant in curative medicines, contains more fibers than all the Japanese silkworms, and is potentially more productive of rubber than the Far East.

# Legion Members Hear Commander

Representatives Of Local Posts Hear Program Of Legion On Postwar Plans

## WILL ASSIST DISCHARGED MEN

Members of the two American Legion posts in New Castle, headed by their commanders, went to Rochester last night for the 21st annual banquet of the Beaver county committee, which was held in the Rochester Post rooms, and heard Department Commander Frank X. Murray, outline the plans the department is laying to aid veterans of the present war after their return from service. Mayor John F. Haven accompanied the delegation as a guest of Perry S. Gaston Post Commander Murray stated that the Pennsylvania department has set aside the sum of \$250,000 in its program of rehabilitation, welfare, and employment for veterans of the current war, knowing from their experience in World War One, that the public is prone to forget the soldier the minute the guns stop firing.

He stated that a conference has been arranged between representatives of the state department of the Legion with the senators and congressmen from Pennsylvania in Washington on February 2, when they will be told what the Legion program for rehabilitation of World War Two veterans aims to accomplish.

The Legion has also arranged a meeting with representatives of the Pennsylvania Department of Commerce, labor, service groups, and the Chamber of Commerce for January 20 at Harrisburg, out of which is expected to come a program of employment for the returning soldiers.

Western Vice Commander Robert E. Malcolm told the Legionnaires that the state membership now stands at 68,000 and that an intensive campaign will be waged to bring this figure to over 100,000 by the end of February.

James Murray, Americanism chairman, also told what the Americanism program for the year consists of. Brief remarks were also made by retiring department commander, Dan Harbauer of Pittsburgh. Perry S. Gaston Post, of New Castle, heads all posts in the 26th District in point of membership and expects to be well over the top by February. The post now has over 300 members.

## Five-Year Probe Comes To End

HARRISBURG, Jan. 13.—(INS)—The Public Utility Commission announced today that a five-year-old investigation of the Pennsylvania Telephone Corporation had been terminated because the utility's rates were equitable.

"The conclusion reached by the commission," an announcement stated, "is that a comparison of the earnings available for return with the fair value indications of record shows the company's rates have not substantially exceeded a fair return upon any fair value base which the commission might determine from the evidence."

A six per cent rate of return on the company's investment was not unreasonable, the commission added, considering the property, territory and other operations. The company serves approximately 64,000 subscribers in Bradford, Cambria, Crawford, Erie, Pike, Somerset, Venango and Warren counties.

**SALES INCREASE**  
PITTSBURGH, Jan. 13.—(INS)—Gross sales increased 18 per cent to \$24,175,136 in 1943 in comparison with the preceding year, it was disclosed today in the annual report of the Amm. Byers Company.

Net profit, however, dropped from \$1,195,422 to \$1,147,113, due to higher labor and material costs and taxes which rose \$506,049 above 1942, the firm stated.

## Feed Prices Force Sale Of Chickens

WARREN, Pa., Jan. 13.—(INS)—High prices of feed were reported today to be forcing farmers in the Warren district to sell their flocks of pullets and hens.

L. C. Angove, one of Warren's largest meat dealers, said he had numerous offers from farmers who want to sell all their chickens because they are feeding them at a loss.

For a year cattlemen and dairymen have cut their herds almost in half because they are short of help and they find the business unprofitable, they asserted.

## SELS WIFE FATALY BURNED

PITTSBURGH, Jan. 13.—(INS)—John Flohr, 83, who is partly paralyzed, was suffering today from shock after seeing fatal flames enshroud his wife, also 83, as she stood before an open gas stove.

Flohr also suffered burns as he struggled to a rocking chair where his wife collapsed and beat out the fire with his hands. Both were taken to South Side hospital, where Mrs. Flohr died.

## Concert Guild Teams To Report Tonight

Talent Committee Has Three Unusual Attractions Scheduled For Season

Now that the talent committee of the Metropolitan Concert Guild has settled upon the attractions for the coming winter, the sale of season tickets has spurred and the campaign is well under way, the campaign manager, Roger W. Jew-

ett stated today. This year the guild offers the best three attractions it has ever had, and conversely the lowest price.

The first attraction, billed for January 31 is the Ballet Russe de Monte Carlo, an attraction that needs little selling. It is at the top of its particular class in the field of entertainment. It is something everybody wants to see.

For the second attraction the Guild has secured one of the newer baritone voices of the United States, Thomas L. Thomas, a native of Scranton. Mr. Thomas is rapidly challenging the skill of John Charles Thomas and Lawrence Tibbets.

The third attraction on the list

is Luboshutz and Nemenoff, a piano team that once played here and since then has added to its popularity.

This year the price of season tickets has been reduced from \$5 to \$3.50 which seems to make it about the only thing to be reduced in price. And amazingly enough the quality of the course is higher than it has ever been.

A meeting will be held tonight in The Castleton hotel at which time the solicitors in the Guild will report their ticket sales. It is hoped that this year's card will attract a crowd large enough to permit the organization to have a little money in the treasury for the following season.

## Charge Woman Sold Her Child

SAN FRANCISCO, Jan. 13.—(INS)—Federal Bureau of Investigation agents charged today that a young Hammond, Ind., woman, under indictment for violation of the Dyer Act, sold one of her five children for \$50.

The defendant is 32-year-old Harriet Dale Horton who, federal agents said, eloped, deserting her husband and four children, and then sold the child to a childless couple shortly after the elopement.

## COLLEGE HEADS TO MEET

HARRISBURG, Jan. 13.—(INS)—The Pennsylvania Association of College Presidents will hold its annual convention at the state capital June 21. Postwar methods of liberal education will be discussed and prominent speakers will be heard.

The end of the strike came as union leaders accepted the government's eight-point arbitration proposal, which included a guarantee for retroactivity of any wage increases won, an increase in the cost-of-living bonus, and a promise of no discrimination against the strikers.

Dr. Joshua Clayton was the first governor of Delaware.

## ORDERED TO RETURN

MONTREAL, Jan. 13.—(INS)—Montreal's 2,000 white collar workers who have been on strike for days, were under orders today to return to work and submit their wage arbitration machinery.

The end of the strike came as union leaders accepted the government's eight-point arbitration proposal, which included a guarantee for retroactivity of any wage increases won, an increase in the cost-of-living bonus, and a promise of no discrimination against the strikers.

Dr. Joshua Clayton was the first governor of Delaware.

## BOND RALLY AT SPRING CO. PLANT

Workers Expect To Maintain  
Outstanding Record Set  
In Past

Workers at the plant of the Standard Steel Spring Company were enthusiastic over the programs presented at each turn Wednesday, which opened the campaign for the fourth war loan bond sale at the plant.

E. M. Brookover, representative of the treasury department at the plant was master of ceremonies, and at the conclusion of the programs, subscriptions began to come in from the workers, showing their intention of maintaining the outstanding record the plant has made in the previous war loan drives.

Pvt. Ivan Kennedy, of Norton, Va., a wounded soldier from Deshon hospital, was the guest of honor, and remarks were made by Joe Booth, representing the employees, Jack Grille, representing the labor organizations, and Richard W. Irwin, representing the management.

A talking picture, "War Department Report," was shown by C. M. England, showing where the dollars Americans have invested in war securities, are going.

Selections were rendered by the plant chorus, directed by Bill Richards.

## Sergeant Kennedy Home From Pacific After Two Years

After two years service with the infantry in the South Pacific, Sgt. George "Bud" Kennedy, son of Mr. and Mrs. Jess Kennedy of 107 Richelieu avenue, is home for a thirty-day furlough.

Sergeant Kennedy left for the South Pacific in January 1942. Over there he served on New Caledonia, the New Hebrides and saw much action on Guadalcanal. Three different times he was cited for gallantry and his last exploit won him the Silver Star.

He was injured during maneuvers and spent some time in various hospitals. After a furlough spent here he will return to service.

## Labor Spokesmen Predict Rejection Of Draft Labor Plan

WASHINGTON, Jan. 13.—(INS)—Labor spokesmen confidently predicted today that congress will reject President Roosevelt's request for national service legislation.

Pointing to the already strong sentiment on Capitol Hill against a compulsory labor draft, representatives of union workers pledged a fight against such legislation every step of the way.

Next official pronouncement on the subject may come from the AFL

executive council which assembled Monday in Miami, Fla. AFL President William Green, already has denounced Mr. Roosevelt's proposal. Both Green and CIO President Philip Murray remained steadfastly opposed to a universal service law after a conference of nearly two hours with President Roosevelt on the subject.

"Our statements are unchanged," Green declared.

## Barrage Balloon Came From South

NEWPORT, Pa., Jan. 13.—(INS)—

The 80-foot runway barrage balloon which landed on a Newport farm was being deflated today for shipment to its owners who had remained unidentified since Tuesday.

Officials at the Middletown air depot announced they traced the

balloon through serial numbers to a lighter-than-air craft unit at a southern training camp. The balloon had floated in from Western Pennsylvania, landing after cables had ripped two power lines. It was believed to have broken from its moorings.

## Catholic Welfare Conference Group Will Raise Funds

Sunday, January 30, Named  
As Charity Sunday In All  
Catholic Churches

The executive committee of the Catholic Welfare Conference held its regular meeting Wednesday, January 12, in the offices of the organization, 200 Greer building, James Carey, president.

Present at the meeting were James Carey, president; Rev. Fr. F. M. McCarter, director; Rev. Fr. Francis C. Streiff, vice president; Margaret Valley, secretary; Rev. Fr. Joseph Kernan, Rev. Fr. Joseph Young, Rev. Fr. William Pisarcik, Rev. Fr. Francis Paul, Mrs. John Griffith, Fred Gallo, Mrs. Frank Colano, and Mrs. Sarah Boyle.

After the discharge of routine business, the committee concerned itself with ways and means of financing the conference for the year 1944.

Sunday, January 30, was named as Charity Sunday in the Catholic churches of Lawrence County, when a collection will be taken up in all the churches. The aim of this collection will be to raise an amount of money equivalent to 2 per cent of the gross income of the parishes.

This plan was adopted by way of accord with the directions of the honorary president, Most Rev. Hugh C. Boyle, bishop of Pittsburgh diocese, who authorized the expenditure of this amount of money in continuance, as he reminded us of the first duty of the church, the care of the poor.

## VICTORY BUDGET SENT TO CONGRESS ASKS 108 BILLIONS

(Continued From Page One)

President held forth the promise that the major demobilization of the armed forces would begin after Germany has been knocked out of the war—even though the United Nations might still be involved in a "major war" against Japan.

"If hostilities end on one major front before they end on other fronts, large-scale demobilization adjustments will be possible and necessary while we are still fighting a major war," the president said.

His message was studied with recommendations for the postwar period and contained such optimistic passages as:

"In this budget I have outlined the financial requirements for victory."

"I emphasize, however, that this estimate of 90 billions in war spending is tentative; it is based upon the assumption that the war will continue throughout the fiscal year 1945. . . . If, on the other hand, victory should be achieved on one of the major fronts earlier than assumed, I assure the congress and the nation that war production will be promptly adjusted to the changed requirements."

"I hope that this total war program will never be fully obligated or spent."

**Spend 153 Billions**  
Up to December, 1943, Mr. Roosevelt reported, war appropriations and contract authorizations totaled \$44 billion dollars, of which \$33 billions had actually been spent. By June 1944, he estimated \$202 billion dollars will have been actually paid out for war purposes, and that this total would rise to \$292 billions by June, 1945.

On top of this actual war spending, Mr. Roosevelt declared, the present budget would provide appropriations and contract authorizations which would leave 105 billions still to be spent after the 1945 fiscal year had ended—provided that the war still continued at that time.

In the face of this huge cost of the war, the president reiterated his demand for a tax program which would provide at least ten and a half billion dollars additional revenue.

He pointed out that while all government spending—war and non-war—would total 100 billion dollars during fiscal 1945, tax collections would reach only 41 billions, leaving 59 percent of the current cost of the war unpaid.

"The time to impose high taxes is now when incomes are high and

goods are scarce," the president declared as he urged upon congress "the need for additional revenue beyond that provided in the bill now pending before the senate."

"We have attained superiority in war production," President Roosevelt told the congress. But he added: "Production alone does not assure victory. We must fight and fight hard."

## Some Excess Munitions

He reported that in contrast to conditions a year ago, the United States now has excess supplies of munitions of some types, and war contracts of some types have been cancelled in order to use the plant facilities, manpower, and raw materials for more urgent war orders.

As an example, he pointed to the cancellation of contracts for many escort vessels to increase the output of landing vessels.

Thinking of the home front, the president declared that "we shall release for civilian production any facilities, manpower, or raw materials that are no longer needed for war production, but only when we are sure that by doing so we will not impair the war effort."

According to figures presented in the message, President Roosevelt expects the United States to reach its peak of war production some time late this year and that the total will decline gradually thereafter.

## In Addition to Increased Taxation

President Roosevelt recommended again that congress act to broaden the social security program, and permit the scheduled doubling of the employers and employees old age social security tax.

## Mustering-Out Pay

Mr. Roosevelt expressed confidence that congress would take early action to provide mustering-out pay for servicemen and women; and set up an educational and training program to enable those demobilized from the armed forces to prepare for peacetime employment.

The president repeated the request he made in his annual message that the present war contracts renegotiation law should be continued to permit the federal government "to recover excessive amounts paid under them, as well as to reduce inordinately high prices being charged for goods still to be delivered."

Mr. Roosevelt recommended that the present public debt ceiling of 210 billions be raised, because the debt is expected to reach the total of 198 billion dollars by June, 1944. Under the president's budget proposals, congress would be asked to increase war appropriations, and authorizations by 60 billion dollars. In addition, 38 billions appropriated in the 1944 fiscal period but unused because of revisions in the war program, would be reappropriated for different war uses.

## Firemen To Have Memorial Sunday

Annual Service Honoring Departed Will Take Place  
Sunday Evening

New Castle firemen will honor their departed members on Sunday evening, January 16, when the annual memorial service will take place in the First Presbyterian church at 7:30 o'clock with the pastor, Dr. John J. McIlwaine, delivering the sermon.

All firemen will meet at Central fire station on South Jefferson street, by 7 o'clock sharp, from whence they will march in a body to the church and will sit in a section reserved for them.

## PRESIDENT WILL

REST FEW DAYS

WASHINGTON, Jan. 13.—(INS)—The White House announced today that President Roosevelt plans to "take a rest" for a few days, now that his state of the union and annual budget messages have gone to congress.

Rear Admiral Ross T. McIntire has insisted that Mr. Roosevelt now relax and recover completely from his weakening attack of influenza.

## Churches To Contact Residents In Survey

Five Hundred Workers To  
Rally For Visits To All  
Homes On Sunday,  
January 23

Under the auspices of the ministerium, churches of the city will conduct a city-wide survey on Sunday afternoon, January 23. The object of the survey is to enable the churches to minister more helpfully to the people of our city. The survey aims particularly to contact new residents, and to assure all of a cordial welcome in the church of their choice.

In preparation for the survey, a rally of the 500 workers expected to cooperate in the project will be held at the First Baptist church, corner of North and East streets, on Thursday evening, January 20, at 7:30 p. m.

Rev. T. J. Jones, president of the New Castle Ministerial Association, will conduct the devotional period. Rev. Oliver W. Hurst, chairman of the evangelistic committee, will explain the task ahead and suggest something of the excellent results possible through its efficient accomplishment.

Eight ward leaders serving with Mr. Hurst in this city-wide survey are: Dr. J. J. McIlwaine, Rev. D. L. Ferguson, Rev. H. Davis, Rev. C. R. Thayer, Rev. J. N. Rainey, Rev. J. S. Munnerlyn, Rev. C. Roland and Rev. F. P. Sulmonetti.

A copy of the survey card will be printed in The New Castle News next week so that residents may have the requested information available when the canvassers call. The courteous cooperation of every citizen will be greatly appreciated.

## FRENCH FORCES AID IN BATTLE TAKING CERVARO

(Continued From Page One)

Nazis on terrain made sodden by an unexpected thaw. Allied planes carried out operational sorties over the front in support of ground troops.

Veteran French troops launched their attack in the region of Rocchetta and advanced slowly in the face of strenuous German efforts to halt them. At several points they punched their way to depths of 1,000 yards as they pressed forward to seize heights that included captured Rain and Molino.

The French forces that slugged ahead included some American troops, and were commanded by Gen. Alphonse Juin.

## Stiff Battles

The most northerly point the French reached was a road running from Colla to Aina, and stiff fighting ensued for a 3,000-foot hill that overlooks the highway.

South of the road another hot battle raged for Mount Monna Casale, rising to an elevation of 4,000 feet.

Action on the Eighth army front is limited to strong patrolling activity. British patrols, feeling out the enemy, found the German lines strongly held. Nazi scouts learned the same thing about the Eighth army's positions.

Allied artillery lobbed shells into the town of Orsogna, causing one large fire.

Lieut. Gen. Mark W. Clark's forces continued its nine-day-old drive toward the Cassino gateway to Rome, pressing to within three miles of the road junction in one sector of the ten-mile offensive front.

## Winter Thaw Occurs

Despite rising streams, caused by a sudden thaw after wintry weather that plagued the Fifth army troops, Clark's army continued to advance in the face of strong enemy resistance.

The Germans were cleared from a pocket some 800 yards from Mount Piperini, which was captured Monday. The Allies then stormed 2,000-foot high Mount Caprano, about a mile northeast of Cervaro.

From there the Americans advanced against the village itself. The left flank of the Fifth army, held by British forces, beat back a strong German counter-thrust which at one time drove across the Garigliano river southeast of Castellote. However, the British re-established their positions.

On the Adriatic end of the transpeninsular front, the British Eighth army engaged the enemy in artillery duels and patrol clashes south of the vital port of Pescara.

Both Allied armies were obtaining aerial support, as medium bombers and fighters hammered enemy installations and communications lines behind the front. Air operations included another "one-two" punch dealt the Balkans by American Flying Fortress and British Wellington bombers which blasted port facilities at Piraeus, key German shipping outlet in Greece.

## French Launch Attack

Algiers, Jan. 13.—French troops under General Alphonse Juin, operating with American equipment, have launched an attack from the northern portion of the Fifth Army front in Italy and at latest reports today were making good progress.

They have seized several important heights near the town of Rocchetta against bitter enemy resistance.

It was disclosed a few days ago that some American forces are fighting with the French and under General Juin's direction. The American units were turned over to Juin by Lt. Gen. Mark W. Clark, commander of the Fifth Army.

French success in difficult mountainous terrain seemed to justify the confidence of Gen. Dwight D. Eisenhower in the ultimate value of General Henri Giraud's reformed forces to the Allied army.

The French poilus, clothed in American battledress, including the khaki leggings and field helmet, is proving that he retains the skill and courage in infantry warfare that he demonstrated in the First World War.

## Defense Commands Are Consolidated

Many In Defense Units To Be  
Released For Overseas  
Duty

WASHINGTON, Jan. 13.—(INS)—

The war and navy departments today announced a consolidation of defense commands designed to release troops now serving in this branch for overseas duty.

Some units will be retained as defense commands, however, but

even these will be trained for fighting on foreign fronts.

The war department said that it would be a "waste of manpower" to keep the present number of troops now in this country in static defense positions now that "the battlefront has moved from our border and we have taken the offensive."

Effective Saturday, the central defense command will be consolidated with the eastern defense command.

Lt. Gen. George Grunert, former-

ly of the eastern command, will

have the consolidated command with headquarters in New York.

New York and Pennsylvania are in the eastern defense command. States in the central command to be consolidated into the new command include West Virginia and Ohio.

The greatest depth of ocean that has been measured is 32,644 feet, or more than six miles, which was sounded in the Pacific Ocean, about 145 miles southeast of Tokyo, by of the eastern command, will Japan.

## Senate Votes For Victory Tax Rate Of Three Per Cent

### Other Features Of Tax Bill Are Accepted; Senator Says Taxes Near Oppressive Stage

By WILLIAM S. NEAL  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—The Senate voted Wednesday to impose a victory tax of three percent on all salaries above \$12 per week.

The senate also agreed to accept all of the other income tax provisions of the house-approved bill which would keep the tax structure at practically the same level as last year. The present victory tax is five percent.

By its act the senate ignored the demands of the treasury for an increase of six and one-half billion in individual income taxes.

The changes approved today increase the burden by about 665 million annually.

**Can't Stand Greater Taxes**  
Sen. Walter P. George, chairman of the finance committee, told the senate that "the great bulk of the people" could not stand the increased taxation as proposed by the treasury.

"We feel that the burden of individual income taxes is beginning to become oppressive," he said. "Further taxes would force the white collar class to go into the bulk of the class which has made the country great."

"If the great middle class is to be preserved for the function of investment of savings by those who can save, then taxes must not be confiscatory," he continued.

"We were unable to justify the treasury's proposal to increase individual income taxes by \$1.5 billion unless some plan could be devised to take care of millions in the white collar class and those on fixed incomes."

While George did not mention President Roosevelt's statement that the measure fails to meet his standard of a "realistic" tax bill, he vigorously defended the current measure.

**Cites Situation**  
George pointed out:  
1. In 1944-1945, a man with a million dollar income will have to pay out \$5,750 more than he takes in. A man with \$750,000 income will have to pay taxes of \$753,000.

2. No individual, no matter how great his income, will have as much as \$25,000 left after paying taxes.

3. Since 1940 total government tax collections have risen 600 percent. The total now is several times the past record for collections.

4. Individual income tax burdens have increased as much as 4,000 to 5,000 percent. A married man, with two dependents, and a \$4,000 income, had his tax increased 4,335 percent since 1940.

He said the estimated government deficit has been cut 11 billion dollars since the treasury asked for a ten and one half billion tax bill.

George said that taxes can be too high even in time of war.

## Jesus Answers His Critics

Highlights On The Sunday School Lesson

## The Golden Text

Jesus and His disciples going through the cornfield.

"Blessed are ye when men shall reproach you, and persecute you, and say all manner of evil against you falsely, for My sake."—Matt. 5:11.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for January 16 is Mark 2:15-23, the Golden Text being Matt. 5:11. "Blessed are ye when men shall reproach you and persecute you, and say all manner of evil against you falsely, for My sake.")

You remember our last lesson ended when Jesus called Levi, the publican, to follow Him. We know Levi as Matthew.

Matthew made a great feast for Jesus at his house and many were invited, including, probably, some publicans who had been associated with Levi in collecting taxes from their countrymen for the Roman masters. The Pharisees, those chronic enemies of Jesus, and the scribes, asked His disciples, "How is it that He eateth with publicans and sinners?"

The word "sinners" does not mean that any of these men were guilty of crimes, but that they were not accepted by the orthodox Jewish church as acceptable from their legalistic standpoint.

Jesus' answer was one of the most precious in the whole record of His teaching. He said, "They that are whole have no need of the physician, but they that are sick. I came not to call the righteous, but the sinners to repentance."

**Pharisees Silenced**  
That silenced them at that point, but immediately they asked why Jesus' disciples did not fast. The

only by the priests. "And He said unto them, The sabbath was made for man and not man for the sabbath. Therefore the Son of Man is Lord also of the Sabbath."

**Sees Man With Withered Hand**

After that Jesus entered the synagogue and beheld there a man with a withered hand. The Pharisees were there, too, watching to see if they could trip Him, if He would heal the man on the sabbath. Jesus told the man to stand forth, and when he did so, Jesus turned to His enemies and said, "Is it lawful to do good on the sabbath days, or to do evil, to save life, or to kill?" But no one answered. Then Jesus told the man to stretch forth his hand, and he did so and the hand was made whole. He was grieved and angered at their hardness of heart.

Jesus and His disciples withdrew to the Sea of Galilee, and great multitudes followed them, and He healed many. Here He also chose His 12 disciples to be trained and taught to carry His message to all the people after He had left them.

Among the persons whom Jesus healed were many afflicted with evil spirits which Jesus cast out. But the scribes came down from Jerusalem and said it was the power of Satan not of God, through which He cast them out. Jesus asked them how Satan could work against himself? He also told them what was the unpardonable sin: to blaspheme against the Holy Ghost. He "hath never forgiveness, but is in danger of eternal damnation."

This He said because they accused Him of having "an unclean spirit." Blasphemy indeed!

One more incident of this time and we are finished, as our lesson is long. His mother and brethren came to the house where Jesus was and sent word that they wanted to talk with Him, but Jesus said, "Who is My mother or My brethren?"

Looking around Him at His disciples and followers He stated, "Behold My mother and My brethren! For whosoever shall do the will of God, the same is My brother, and My sister and mother." He doubtless loved His earthly parents and brothers and sister, but no kin folk could claim Him: His mission was to all the world. Those who so needed Him were therefore His family.

**State Probe At  
Mercer Delayed**

MERCER, Pa., Jan. 13.—(INS)—Illness of Court Stenographer Gordon Miller, who suffered a stroke, today delayed the state's investigation into the Mercer triple-slaying trial, in which William A. Morell was convicted of manslaughter in the death of Everett Wilson's wife.

Miller's transcription of testimony taken at the trial, which was being prepared for Special State Investigator Harry A. Estep, was interrupted by his illness.

Meanwhile, Estep has questioned Wilson, owner of the dairy farm where his mother and a hired hand also were slain; Morell, a farm employee who was acquitted on charges of murder; and Janice Graham, a maid at the Wilson home, who fled with Morell after the slayings posing as his wife.

## PHILADELPHIA WAGE ISSUE IS NOT YET SETTLED

PHILADELPHIA, Jan. 13.—(INS)—Quaker City residents faced rubbish-and-trash-littered streets for the eighth day today as both city councilmen and leaders of the 3,000 striking department of public works employees refused to give an inch of ground in the wage controversy.

First attempts at mediation by state labor experts proved fruitless when Council President Fred Garman asked postponement of hearings pending Mayor Bernard Samuel's return from Washington. But council members were bitter in their denunciation of the strike.

"It's a hold-up, that's what it is," declared Phineas T. Green, a member of the council's special negotiating committee.

"If we granted all these demands, we'd virtually have to throw the budget in the ashcan," declared Garman.

Robert Loneragan, international representative of the American Federation of State, County and Municipal Employees, AFL, of which the strikers are members, asserted that "the men want a flat 10 cents and hour increase with no ifs, ands, or buts."

"Add they won't go back until they get it," he added.

The union leaders have already rejected one compromise offer by council which would allot a lump sum of \$400,000, to be followed by arbitration, in lieu of the 10 cent hourly boost demanded by the strikers. The local has called a general membership meeting for tomorrow.

Meanwhile, Philadelphians tried to gain some relief by burning rubbish, but overflowing garbage piles and trash-filled streets continued to menace health.

**CLAIMS 108 YEARS**  
ELGIN, Ill., Jan. 13.—(INS)—Birthdays are getting to be an old story for Robert Wilson, Negro veteran of the Confederate army, an inmate of the veterans' unit of the Elgin state hospital.

This one today was his 108th. Wilson was born in slavery in Virginia and when his master joined an infantry regiment, he went along too. For half a century after the war he was an itinerant evangelist and now reads his Bible daily without glasses.

**Merchant Is Dead  
At Beaver Falls**

BEAVER FALLS, Pa., Jan. 13.—Funeral services for Lawrence Peff, Sr., 79, merchant here for many years, will be held Friday morning at 9:30 o'clock in St. Mary's Roman Catholic church. Burial will take place in St. Mary's cemetery.

Mr. Peff died today at his home, 1012 Fourth street. He was a member of the St. Mary's church and the Knights of Columbus. He leaves his widow, Mrs. Mary Zell Peff, five sons and two daughters.

## Spend \$50,000,000 On State Routes

HARRISBURG, Jan. 13.—(INS)—Secretary of Highways John U. Shrover disclosed today that \$50,000,000 was spent during the past year on the upkeep of the state highway system.

December 1, 1943 to November 30, 1943, the period represented was the most restricted season in the highway department's history because of wartime curtailments, the Martin cabinet official asserted.

Of the expenditures, approximately \$20,500,000 was spent for construction, reconstruction and resurfacing. More than 450 miles of roads and streets were constructed, reconstructed, resurfaced and widened. Approximately 4,000 miles of bituminous roads were also surfaced. All improvements were approved by federal authorities as necessary to the war effort.

## New U. S. Fighter Plane In Use On European Front

### Deadly Single Seater Is In Service With Air Forces In Europe

(International News Service)  
LONDON, Jan. 13.—Headquarters of the European theater of operations announced officially today that the American P-51 Mustang fighter, one of the world's most efficient aircraft of its class, now is in operation in this area.

The announcement closely on the heels of speculation by well-informed sources that the Mustangs, equipped with auxiliary fuel tanks, escorted American heavy bombers on their daylight attacks on German plane plants Tuesday, setting a record for fighter plane penetration of the Reich.

The North American Mustang is a deadly single-seater of low-wing design, powered by a 12-cylinder, Allison liquid-cooled engine. Normally it carries a top load of 170 gallons of gasoline in two tanks, but this may be boosted by the addition of extra drums to add to its flying range.

Although the plane develops 1,150 horsepower, details of its speed and performance are secret, nevertheless, it is known as one of the fastest fighters in the air.

Its armament includes eight .50-caliber machine guns, six in the wings and two in the sides of the engine cowl.

## Typhus Epidemic Growing In Naples

CAIRO, Jan. 13.—(INS)—The long-raging typhus epidemic which has swept Naples for several months was revealed officially today to be striking the hard-hit city 50 times as heavily as it did last October, posing a potential threat to Allied forces in southern Italy.

United States Army headquarters in the middle east announced that medical officers are extending every possible aid to civilians in the city which the Nazis sacked and crippled by severing water and power lines before abandoning last fall.

Big Gen. Leon A. Fox, field director of the United States typhus commission, said "Naples is seriously threatened and the menace can be expected to extend to southern Italy."

So far, official spokesmen pointed out, no cases have been reported among military personnel, but the rapidly increasing typhus rate contains a "potential menace to the Allied military effort in Italy."

## Count Ciano's Wife Refused To Aid Him

LONDON, Jan. 13.—(INS)—The wife of Count Galeazzo Ciano was reported today to have refused to intercede on behalf of her husband, executed Tuesday as a traitor to Italy's Fascist government.

In a dispatch from Geneva the Daily Mail said that before he went to trial the one-time Italian foreign minister asked his wife, Edda, Benito Mussolini's favorite daughter, to use her influence in his behalf.

Edda refused, the dispatch declared. Ciano was convicted and died before a firing squad at Verona.

NBC reporter Charles Pollitz broadcast from Madrid that reports had reached Spain that an Italian firing squad refused to execute Ciano, Marshal Emilio De Bono and three other members of the Fascist grand council. A German firing squad performed the job, these reports said, adding that thousands of Italian soldiers in northern Italy, angry at the executions, were fleeing south toward Allied lines.

## AROUND CITY HALL

Council today authorized Property Director Joe Alexander and Improvements Director James Gibson to make an inventory of buildings and motorized improvement equipment now at the NYA which is now under the control of the procurement division of the U. S. Treasury. The city would like to acquire one or two buildings and some of the machinery which could be used for making street improvements. Under the ordinance which leased the site to the NYA the city has "first pick" unless it is turned over to some other governmental agency, like the army, which reportedly will take over the center. When this will occur and whether or not what buildings and machinery will be retained is not known here. Congressman Louis E. Graham has arranged for a conference between city and treasury officials to discuss the matter and it is likely that when the inventory is made, the city will decide what it wants and communicate with the treasury department.

When council convened today a plot of ground given by the Lehigh Portland Cement company to the city was ordered given by deed to the Lawrence County Conservators. It is likely that a tree planting program will be launched at an appropriate time by the conservators.

Because a certain kind of hose for spiral is needed Purchasing Agent Joe Alexander of city council has been authorized to procure it for the experimental ice skating rink at Dean park.

Council met this morning in city hall and because the consulting engineers, Havens & Emerson, had informed City Engineer John Z. Street and council that bids for work at the city disposal plant were too high in the consulting engineers' opinion, bids were rejected.

City legal department today notified city council that contrary to reports, there are taxes levied against the Hetz property, site of seven acres formerly occupied by the rubber works, seventh ward, amounting to \$2,894.78. Should the city desire the property for disposal to some industrial concern it could be disposed of but the city would be required to pay the county and school tax, according to Solicitor R. M. White. The matter was referred to committee.

City Controller S. L. Lockley today issued a report to city council detailing the steps that he had taken in making the audit of the accounts of former city and school treasurer and tax collector C. C. McKibben. City Solicitor R. M. White advised council to ask the company, which bonded the former city and school official to immediately cover the loss.

So far, official spokesmen pointed out, no cases have been reported among military personnel, but the rapidly increasing typhus rate contains a "potential menace to the Allied military effort in Italy."

QUIET DEALINGS  
IN STOCK MARKET

Fractional Declines Are Reported In Some Of Stocks During Morning

NEW YORK, Jan. 13.—(INS)—The stock market continued to react today, dropping fractions to around a point in quiet dealings. No group was the particular target of the selling, and practically every section shared in the decline.

Trading, moderately active at the opening, quieted down soon after. Mail orders and mining shares continued lower with both Sears Roebuck and U. S. Smelting dropping a point or more. Aviation was off fractionally, as were the rails, utilities, steels, rubbers and oils.

## LEGAL NOTICES

## Legal Notice

The undersigned City Clerk of the City of New Castle will receive proposals until Monday, January 24, 1944, at 10:00 A. M. for the furnishing to the City of New Castle of public liability insurance to indemnify the City of New Castle against all damages which the City may have to pay for or on account of injuries suffered by any person or persons because of the failure or neglect of the City of New Castle to perform any duty which it owes to the public in regard to any streets, parks, buildings, lands, public places or other property (except automobiles) owned by or under the control of the said City.

Bids may be submitted and proposals made for the furnishing of public liability insurance against loss, either to persons or property or for both. All policies of insurance to be furnished must be on standard forms approved by the Department of Insurance of the Commonwealth of Pennsylvania, and those insuring against personal injuries shall be for the limits of Ten and Twenty-Five Thousand Dollars, and those for property damage shall be for damages to the amount of Fifty Thousand Dollars.

All policies shall indemnify the City against the payment of any damages and also against the cost and expense of defending suits for such damages. The Council reserves the right to reject any or all bids and in determining what proposals shall be accepted, if any, the Council shall consider the rate of premium, the form of the policy, the coverage of the policy, and all other things in the policies which may affect the welfare of the said City.

Each proposal to be accompanied by a specimen copy of proposed policy.

All such proposals should be in writing and sealed, and shall be opened at a meeting of the Council of the City of New Castle at 10:00 P. M. on the morning of Monday, January 24, 1944.

Proposal From  
Mexico is Being  
Considered By U.S.

WASHINGTON, Jan. 13.—(INS)—Secretary of State Hull indicated today that the United States is giving sympathetic consideration to Mexico's proposal for an international conference to determine how to proceed against the situation created by apparent Axis activity in Latin America.

The Mexican government has sent its proposal to the other American republics excepting Argentina and Bolivia, both of which are suspected of Axis tendencies. Uruguay is said already to have approved such a meeting.

If held, the conference would appear to indicate that an even graver view is taken of the Argentine-Bolivian situation than had at first been the case.

LIGHTER PAPER FOR  
NEWSPAPERS LIKELY

WASHINGTON, Jan. 13.—(INS)—Congress moved today to make possible newspapers printed on lighter and narrower paper.

The Senate wrote into the pending tax bill an amendment which redefines standard newspaper which

may be admitted duty free from Canada. The minimum weight of newsprint rolls which may be brought in free is cut to 25 pounds with a width of 14 inches.

From six to seven hundred million pounds of fish and shellfish are brought into New England ports each year.

Charge German  
Prisoners Forced  
To End Own Lives

OMAHA, Neb., Jan. 13.—(INS)—Two of three German prisoners of war who recently committed suicide at the prison camp at Concordia, Kan., were forced to take their own lives because of their anti-Nazi beliefs, it was revealed today.

A German army captain hanged himself, the 7th service command in Omaha disclosed, after being sentenced to death by a kangaroo court which found him guilty of "treasonable" utterances.

The captain was identified as Felix Troppman, a Czech.

An investigation was launched following the suicide of Franz Kettner, 39, a private and a native of Austria.

Kettner, the statement said, took his life by slashing his wrists while in protective custody in the prison camp guard house. He had asked for protection, it was said, because of his fear of persecution at the hands of fellow prisoners because of his anti-Nazi sentiments.

Wounded Veterans  
To Aid State Drive

ATLANTIC CITY, N. J., Jan. 13.—(INS)—Twenty-five wounded American soldiers will leave England General hospital next Monday to tell audiences throughout Pennsylvania what war is really like. Their tour will be part of the fourth war loan campaign.

Representing all branches of the army, veterans of the air and the ground forces from Guadalcanal to Italy, in England, Africa and Sicily, will bring the realities and the horrors of warfare home to the people with the stories of their personal experiences against the enemy.

In the group are three Philadelphians and Sgt. Earl Freilino, of Leeburg, Pa.

Sgt. Freilino, 24, saw action at Kasserine pass and in the final Allied drive that ended the African campaign, he was wounded near Faid pass when he was struck by a strafing bullet from a German plane while fighting from a half-track gun-carrier.

## NAVAL OFFICER HITS AT STRIKES

Also Assails Action Of Postmaster General In Banning Esquire From Mails

WASHINGTON, Jan. 13.—(INS)—Rep. Raulf Compton (R) Conn., made public a letter from a naval officer, who has been under fire in all war zones, bitterly criticizing strikes on the home front and the action of Postmaster General Walker in banning "Esquire" from second class mails.

The naval veteran, Lt. W. J. James, is now an executive officer on a ship in the Southwest Pacific. Compton said, James has been in action against the Germans as well as the Japs, the congressman revealed.

Referring to Walker's action on "Esquire," James wrote:

"What right has anyone to change these things that we are fighting for without our consent—'Esquire' is not only a magazine, it is an institution."

Lt. James told of how one 20-year-old lad was carried mutilated from his fox hole clutching the picture of a Varga girl in his dead fingers because he did not want it to fall into the hands of the Japs. He added this comment:

"These boys have so little. They have and hold foremost their memories. They eat and sleep as catch can. They work and die gladly for their people, a nation, an ungrateful America."

Lt. James complained in the bitterest terms of the damaging effect of strike news on morale. Strikers, he wrote, "certainly must realize that we who are going through a constant hell will not forgive them."

He said the men in the navy were not fighting for "a new idealistic world," but for the world they had left behind.

"We are being sold out," he added, "by the American people who are not honestly making an effort to maintain things as they were. Yes, they'll work in a shipyard provided they receive five times the pay they deserve. I am only one in millions whose hopes are being crushed along with those of our men."

Lt. James said he was present at the Allied landing in Africa, and that he had been bombed by the French, Germans, Italians, "and now the Japs." He said his last ship was torpedoed from under him and

"then they strafed us with machine guns while we swam through the water."

He told how men who had been in the thick of battle swore when they read news of the threatened rail strike and the steel strike, while the eyes of others welled with tears as they maintained their sullen silence.

## State Trappers Have Opportunity

STATE COLLEGE, Jan. 13.—Pennsylvania's wartime trappers will have an unprecedented opportunity to increase their booty when the winter trapping season reaches its peak late this month, Dr. P. F. English acting head of the wildlife research unit at the Pennsylvania State College, predicted today.

With fewer trappers in the field because of the war and war fur prices at a high peak, the Penn State expert said that the season should be one of the best in history. He estimated the yearly return on fur runs in this state since 1926 at \$1,200,649.

This month he pointed out, all fur-bearing animals except beavers and otters are legal prey in this state. The season for minks, skunks, and muskrats is open until January 31, while others may be trapped during the same period in Lackawanna, Luzerne, Monroe, Pike, Susquehanna, Wayne, and Wyoming counties.

Beaver trapping season will open February 15 and continue until February 29 in 22 Pennsylvania counties, while opossums are unprotected throughout the state until September 30. Trapping of red and gray fox is unrestricted throughout the year.

The wildlife research specialist pointed out that proper care of the skins will enhance their value, warning that all fat should be removed before the skin is dried. Drying, he added, should be done in a cool, airy place—never in the sun or close to a fire. He also advised against use of salt, alum, or similar materials.

## Dental Society To Hear Speaker

Dr. Ben Perlow will be the speaker at the Lawrence County Dental Society dinner-meeting, scheduled for Tuesday, January 25, at The Castleton, at 6:30 o'clock.

Dr. Perlow is from Pittsburgh. He will speak on the subject, "Field of Operative Dentistry in Relation to Inlays, Crowns and Bridge Techniques."

## YOUR FEDERAL INCOME TAX

NO. 9  
CARE IN PREPARATION OF INFORMATION

A Federal income and victory tax return is a report to the Government of taxable income for the past year. The declaration of estimated income and victory tax filed by many taxpayers in 1943 was a report of estimated tax liability for the year. The actual tax liability based on complete figures for the year will be reported in the income and victory tax return for 1943, due on or before March 1, 1944.

Individual returns need not be sworn to, but in each the taxpayer must sign the form under the penalties of perjury. They are kept confidential by the Government and their contents cannot be disclosed to any person outside the Federal Internal Revenue Service, except to certain officials authorized by law. The law permits inspection of returns by certain Congressional committees, law enforcement officers, and certain State officials who administer State income tax laws.

After a return has been filed, it is associated with the declaration of estimated tax, if any, filed for the same taxable year, and checked for accuracy by the Internal Revenue Service. The taxpayer may be subject to examination or inquiry relative to matters connected with the return, or his income, and he may be asked for further substantiation of statements made in the return. If the estimated tax reported in the declaration as payable directly to the collector of internal revenue was substantially understated, a penalty for understatement may have been incurred. Estimates could, however, be amended once in the last quarter of 1943 on or before the installment date, and only the final estimate for the year will determine whether a penalty is due.

It is important that persons subject to income and victory taxes prepare complete and accurate returns, both in their own interest and in the interest of economy in the administration of the law. As an aid in accurate filing of returns taxpayers should keep a record of income received during the year and at the time of preparing a return they should read carefully the instructions accompanying the forms.

Employees receiving Statements of Victory Tax Withheld, and Statements of Income Tax Withheld, should preserve these receipts for evidence in supporting the claim for credit for income and victory taxes withheld.

## Holt Enters Race In West Virginia

WESTON, W. Va., Jan. 13.—(INS)—Former Senator Rush D. Holt today announced his candidacy for governor of West Virginia, becoming the first Democrat to enter the race. He was the youngest person ever to be elected to the U. S. Senate and is now Lewis County's delegate to the state legislature.

Two Republicans have already announced their candidacies. They are Mayor Boone Dawson, of Charleston, and Raymond Funkhouser, of Charlestown.

It takes nearly a ton of food a year to feed a soldier.

## County Women Practice Thrift

Homemakers Have Learned To "Make It Do" To Help Out In War Effort

"Make it do" is being practiced by Lawrence county homemakers who are putting their efforts into prolonging the life of household goods and clothing, according to Miss Josephine Simpson, home economics extension representative.

Women in the communities are holding extension meetings or workshops on methods of retelling springs and re-upholstering furniture, remodeling clothing and use of both rationed and home preserved and prepared foods in order to best make the home serve in the war effort. Interest is keen in clothing construction, too. All homemakers are invited to these meetings.

Meetings held so far this week include a retelling of chair springs and re-upholstering meeting at the home of Mrs. John Anderson, Moravia, for homemakers of North Beaver community. Miss May Kemp, assistant home management specialist, was present to demonstrate the proper method for making spring pockets for re-incasing springs in davenport cushions. Springs on several easy chairs were retied and replaced, renovating the chairs. Chair upholstery work was begun.

Miss Kemp was present at the Big Beaver women's meeting Thursday at the home of Mrs. John Brittain, where solid walnut chairs and tables were refinished and an occasional chair was re-upholstered.

On Wednesday Rose Point women met with Mrs. Ted Armstrong for a demonstration on quick breads that add interest and variety to wartime meals. Scotch scones and southern spoon bread were prepared by Miss Simpson and were judged by the women.

The Matheny extension group of Wayne community will meet Friday at 1:30 p. m. at the home of Mrs. Claire McKim to hold a demonstration on whole wheat yeast bread making by Miss Simpson and preparation of breakfast rolls by Mrs. McKim.

Next week's meetings will be held as follows: East Brook women, Tuesday, Jan. 18, at the home of Mrs. J. C. Martin, a work shop on cutting and fitting a house dress; Wednesday, Jan. 19, Mt. Jackson women at the home of Mrs. Wylie Brewster, "Let's Have Fewer Colds"; Clinton group, Friday afternoon, Jan. 21, meeting on remodeling clothing, home of Mrs. Grace Market, Mahoning community Friday evening, Jan. 21.

## Neighborhood House Report For December

Donors For Christmas Treats To Classes Provide Candy, Cookies, Toys, Etc.

Forty calls were made during the month from Neighborhood House and in addition regular classes were carried on there throughout December, each closing with a Christmas celebration, according to a report made at a meeting of the board of the Americanization department of the Y. W. C. A.

Five girls and boys received prizes for perfect attendance at the sewing class, which had as its Christmas treat ice cream, cake and candy.

Members of the Loyal Temperance Legion were served ice cream, cookies and candy at a party sponsored by the Scotland W. C. T. U. Ten boys received perfect attendance awards.

The Luther League of St. John's Lutheran church provided a holiday party for the four evangelism classes. Cookies, ice cream and candy canes were the treat.

Sunday school classes presented a Christmas program with music by a choir of voices from the classes of Miss Virginia Roberts and Miss Christine Butler and Bible readings by the different classes. Miss Roberts and Miss Ruth Garrity were the leaders. Jay Allsworth, Sunday school superintendent, gave out the treat and games and toys given by Sears, Roebuck and Company.

Small dolls, a gift from Miss Sarah Snyder, of Edenburg, were given to the grade school children. The program was repeated at the City Rescue Mission with a flannel-graph story of the first Christmas. Miss Robertson's class presented a program of carol singing at the Almira Home.

Boys of the Sunday school from the ages of 10 to 15 have been given enjoyable Saturday afternoons at the Y. M. C. A. In addition to those mentioned above who gave contributions to the Neighborhood House for Christmas treats were: Mrs. Robert Love, the Reading Circle, Neshamock Girl Scout Troop 21 through Mrs. Lyle Hughes, Mrs. Ira Fields, Mrs. Jay Allsworth, Mrs. Garth Edmundson, Mrs. W. R. Campbell, Miss Emma Carson, Fleming Music Store, Miss Hannah Walker, Mr. and Mrs. Blews, Jr.

Magazines were received from Miss Thelma Merlees, Miss Blanch Bright; booklets of the Bible in pictures from J. C. Clark. Two new testaments, gifts of the Gideons, were presented to soldiers.

## COLLECT MILLIONS OF CANS IN MONTH

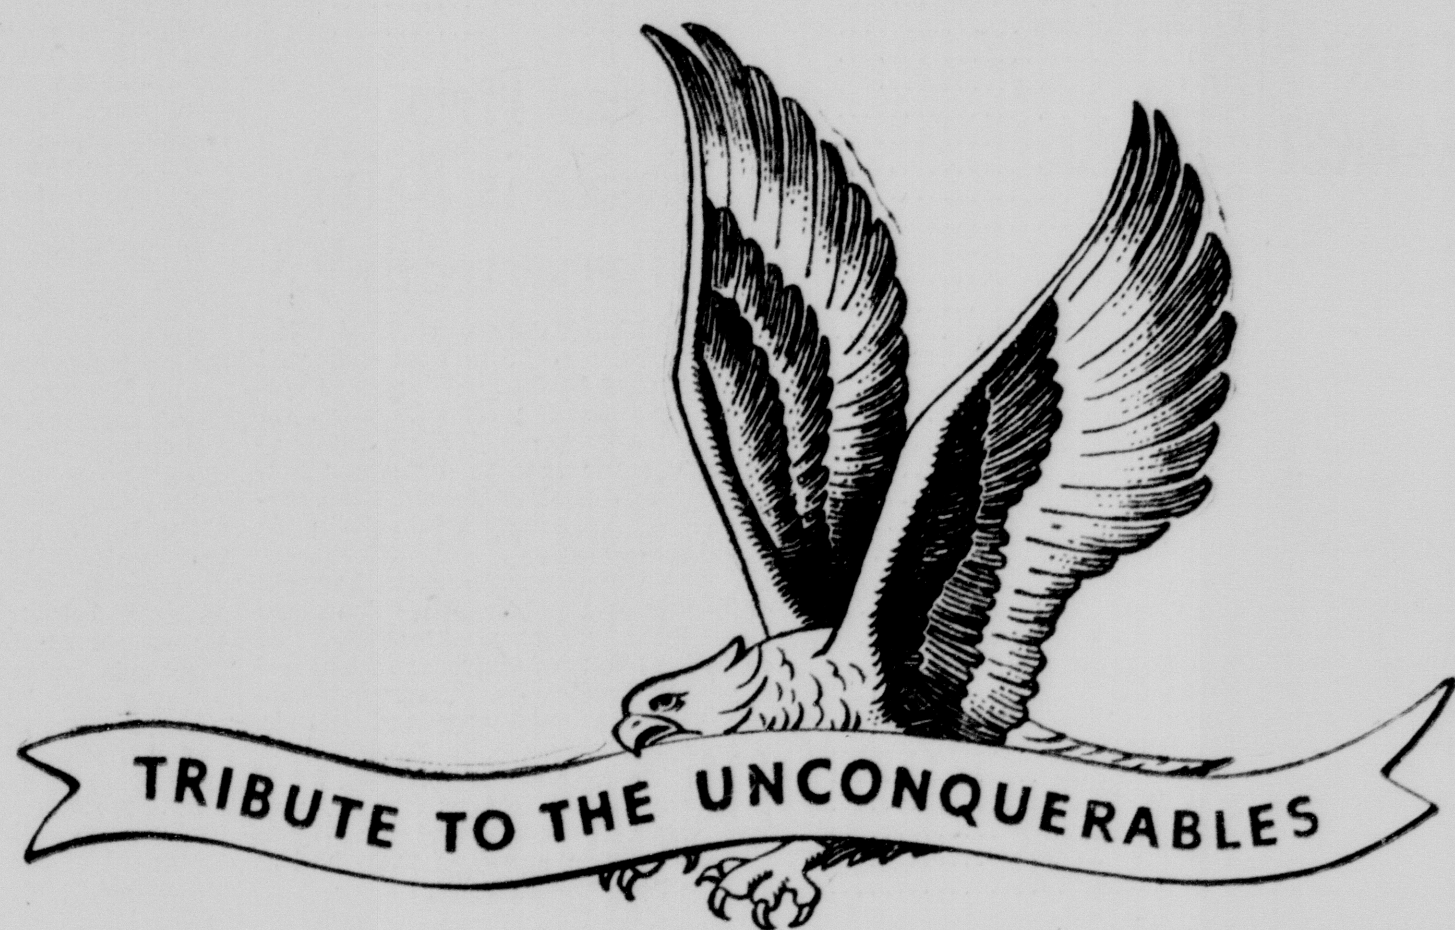

HARRISBURG, Jan. 13.—(INS)—A total of 3,316,537 tin cans was prepared for salvage by school children during December, the State Defense Council revealed today as it announced first winners in school competition.

The council awarded flags to the school in each county having the highest per-pupil collection. The flags will be retained locally for one month. The school collections were in addition to large municipal collections throughout the state.

The highest collection was credited to the Falls township school in Bucks county, where 470 pupils each averaged 256 tin cans.

The chow is a Chinese domestic dog. The true chow always has a black tongue, which differentiates it from all other dogs.

## Greensburg Marine Dies Tarawa Hero

(The following story was written by Staff Sergeant Pete Zurlinden, of Dayton, Ohio, a Marine Corps combat correspondent.)

SOMEWHERE IN THE PACIFIC —(Delayed)—(INS)—Marine Gunner Sergeant Domenick D. Amadio, 24, of Greensburg, Pa., had been fighting only 15 minutes when a Japanese machine gun killed him on Tarawa, but he was a miniature army in himself before he fell.

Gunner Sergeant Amadio, whose wife and son survive him, started on the Japs long before his landing boat reached shore.

Climbing up on the forward ramp, he started banging away his rifle and kept it blazing until time came to abandon the boat and dash over the coral to Betio Beach. He knocked down several Japs who were running around on the shore ahead.

When he got to the beach, Gunner Sergeant Amadio went after one machine gun nest with hand grenades and wiped it out. He attacked another, likewise succeeding in knocking it out. While he was preparing to hurl a grenade into a third, a machine gun bullet cut him down.

## How TO RUIN DRESSES AND LOSE FRIENDS

It's tragic how some girls lose their friends and ruin their dresses because of perspiration odor and stains. And there's no excuse for it! It's easy to save dresses, it's easy to save friends.

Use Arrid, the new cream deodorant that helps keep your armpits dry and removes the odor from perspiration. Arrid is safe and dependable for these 5 reasons:

1. Does not irritate skin. Does not rot dresses or men's shirts.
2. Prevents under-arm odor. Helps stop perspiration safely.
3. A pure white, antiseptic, stainless cream.
4. No waiting to dry. Can be used right after shaving.
5. Awarded Approval Seal of American Institute of Laundering—harmless to fabric. Use Arrid regularly.

Arrid is the largest selling deodorant. Sold at all stores selling toilet goods—10c, 30c and 50c a jar.

## TRIAL IS POSTPONED

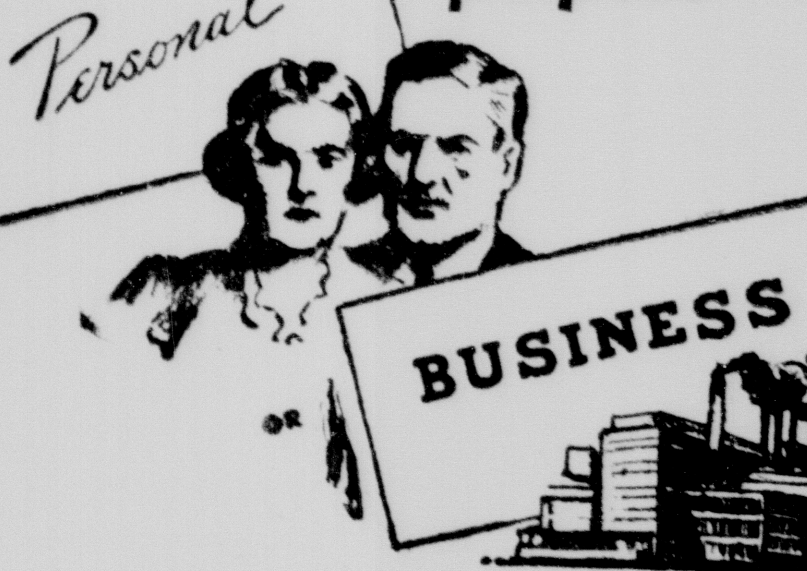

PITTSBURGH, Jan. 13.—(INS)—Federal Judge R. M. Gibson, on Wednesday granted a second postponement to May 1 in the trial of the Carnegie-Illinois Steel corporation, charged with supplying standard steel plates and falsifying records on war contracts.

The case, originally set for December 13, was previously postponed to February 7.

Former Judge Elmer W. Marshall, for the defense, said the corporation was booked for maximum production until May and that presence in court at this time of technical men and officials would curtail production.
